THE BMW 6 SERIES. GRAN COUPÉ AND CONVERTIBLE.

BMW EFFICIENTDYNAMICS. LESS EMISSIONS. MORE DRIVING PLEASURE.
Internet use, depending on your mobile contract, may incur costs.

DIGITAL DISCOVERY: THE NEW BMW BROCHURES APP.

More information, more driving pleasure: The new BMW brochures app offers you a brand new digital and interactive BMW experience. Download the BMW brochures app for your smartphone or tablet now and explore new perspectives of your BMW.

NEW DIMENSIONS OF DRIVING PLEASURE.

THE MODELS SHOWN.

04 BMW 6 SERIES GRAN COUPE WITH BMW INDIVIDUAL:

BMW 6 SERIES CONVERTIBLE WITH DESIGN PURE EXPERIENCE:
BMW TwinPower Turbo 8-cylinder petrol engine, 330 kW (450 hp), 20" light alloy wheels Multi-spoke 616 with mixed, runflat tyres, Melbourne Red metallic exterior colour, seats in Bicolour Cognac/Black exclusive Nappa leather, Fineline Brown fine-wood interior trim.

INNOVATION AND TECHNOLOGY.

22 BMW TWIN POWER TURBO ENGINES:
At the heart of BMW EfficientDynamics.

24 BMW EFFICIENT DYNAMICS:
The joys of reducing consumption.

26 BMW CONNECTED DRIVE/BMW PERSONAL COPILOT:
Digital Services & Driver Assistance.

28 CHASSIS:
Innovative systems for more driving pleasure.

30 SAFETY:
Technology at the highest level.

INDIVIDUALITY AND VERSATILITY.

34 EQUIPMENT: BMW Design Pure Excellence, BMW Design Pure Experience, M Sport package and BMW Individual, equipment highlights, wheels and tyres and Original BMW Accessories.

52 COLOURS: A world of colour for the exterior and interior.

56 TECHNICAL DATA: Weight, engine, transmission, performance, fuel consumption, wheels and dimensions.

58 BMW SERVICE: BMW Service, BMW Financial Services and BMW Experience.
IN THE BEST COMPANY.

You rarely come across a vehicle that not only fulfills your expectations, but surpasses them. In the BMW 6 Series, there are two of them: As Gran Coupé and Convertible, it sets standards in luxury, sportiness and elegance – and shows how natural special can be.
One thing is certain: this vehicle’s appearance captures the attention. The elegantly modelled rear profile of the BMW 6 Series Gran Coupé and the sleek lines of its flanks make it totally clear – luxurious design and leading-edge performance make for an outstanding partnership.
LUXURY TAKES ON A NEW FORM.
Rediscover luxury: perfectly poised on 20” BMW Individual light alloy wheels, the BMW 6 Series Gran Coupé is evidently on top of things. The same is true when it’s out on the road, where the day-to-day dynamic superiority cannot be doubted – and the next day cannot come soon enough.

PERFORMANCE REFINED.
FEEL PERFECTION.

Take your seat. Look around. Experience for yourself how everything in the interior of the BMW 6 Series Gran Coupé combines absolute luxury with exceptional comfort. The high-quality, meticulously crafted materials and the flawless design surpass the most exacting expectations – and, thanks to BMW Individual, your personal wishes are transformed into road-going reality.

inspired by BMW Individual
TWO ROUTES. ONE GOAL.
An experience of light, air and flowing lines – the BMW 6 Series Convertible. This enthralling overall impression is perfectly complemented by fine details such as contrast stitching in the exclusive Cognac/Black Nappa leather. And it all comes together to create another world where driving under the open skies is a truly unique pleasure.

DRIES TEARS OF JOY IN THE AIRSTREAM.
For all to see, but only you can feel it: take the highly functional and ergonomically designed steering wheel into your hands. Discover the select interior materials and the comfort of the bi-colour leather seats – and experience luxury and elegance that will delight you again and again.

ITS ELEGANCE IS AN OPEN SECRET.

For all to see, but only you can feel it: take the highly functional and ergonomically designed steering wheel into your hands. Discover the select interior materials and the comfort of the bi-colour leather seats – and experience luxury and elegance that will delight you again and again.
BMW TWIN POWER TURBO ENGINES: At the heart of BMW EfficientDynamics.

BMW EFFICIENT DYNAMICS: Maximum driving pleasure, minimum fuel consumption.

BMW CONNECTED DRIVE: Digital services & apps.

BMW PERSONAL COPILOT: Intelligent driver assistance systems.

CHASSIS: Innovative systems for more driving pleasure.

INNOVATION AND TECHNOLOGY.
BMW TwinPower Turbo engines.
At the heart of BMW EfficientDynamics.

Thanks to BMW TwinPower Turbo technology, the innovative new generation of BMW petrol and diesel engines from the BMW EfficientDynamics engine range can deliver an agile performance and excellent responsiveness even at low engine speeds, all while being exceptionally fuel efficient and low in emissions. Increased efficiency and optimal dynamics guarantee noticeably more intense driving pleasure.

Commanding acceleration – all any BMW driver could wish for: thanks to its exceptional responsiveness and high power reserves, the BMW TwinPower Turbo 8-cylinder petrol engine from the EfficientDynamics engine range impresses in every situation.

This powerhouse combines two turbochargers with Valvetronic fully variable valve control including Double-VANOS and High Precision Injection with solenoid injectors. At engine speeds between 2,000 and 4,500 rpm, it generates impressive maximum torque of 650 Nm. With a maximum output of 330 kW (450 hp), the V8 propels the vehicle from 0 to 100 km/h in a mere 4.6 seconds.

BMW 640i. Gran Coupé / Convertible
- BMW TwinPower Turbo inline 6-cylinder petrol engine with 235 kW (320 hp) and 450 Nm torque
- Acceleration 0–100 km/h: 5.4 s / 5.5 s;
- Top speed: 250 km/h / 250 km/h;
- Combined fuel consumption: 8.1–8.2 l/100 km /
  8.2–8.4 l/100 km;
- Combined CO₂ emissions: 188–192 g/km / 191–195 g/km

BMW 640d. Gran Coupé / Convertible
- BMW TwinPower Turbo inline 6-cylinder diesel engine with 230 kW (313 hp) and 630 Nm torque
- Acceleration 0–100 km/h: 5.2 s / 5.3 s;
- Top speed: 250 km/h / 250 km/h;
- Combined fuel consumption: 5.8–6.0 l/100 km /
  5.8–6.0 l/100 km;
- Combined CO₂ emissions: 153–158 g/km / 154–158 g/km

BMW 650i. Gran Coupé / Convertible
- BMW TwinPower Turbo 8-cylinder petrol engine with 330 kW (450 hp) and 650 Nm torque
- Acceleration 0–100 km/h: 4.6 s / 4.6 s;
- Top speed: 250 km/h / 250 km/h;
- Combined fuel consumption: 8.6–8.8 l/100 km /
  8.9–9.1 l/100 km;
- Combined CO₂ emissions: 199–206 g/km / 208–213 g/km

BMW 650d. Gran Coupé / Convertible
- BMW TwinPower Turbo 8-cylinder diesel engine with 330 kW (450 hp) and 650 Nm torque
- Acceleration 0–100 km/h: 4.4 s / 4.5 s;
- Top speed: 250 km/h / 250 km/h;
- Combined fuel consumption: 9.2–9.4 l/100 km /
  9.3–9.5 l/100 km;
- Combined CO₂ emissions: 215–219 g/km / 217–221 g/km

1 Available to order until end of 05/2018.
2 Electronically restricted.
3 The data for fuel consumption, CO₂ emissions and energy consumption were determined in accordance with the measurement processes as defined by European Regulation (EU) 715/2007 in the applicable version. The data ranges account for differences according to the selected wheel and tyre sizes. For further information on fuel consumption and CO₂ emissions, please see pages 56 | 57 or consult your local BMW partner.

Permissible fuel consumption and CO₂ emissions figures apply to vehicles with German standard equipment.
BMW EFFICIENT DYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

www.bmw.com/efficientdynamics

MORE POWER FROM LESS FUEL.
More power from 3 to 12 cylinders. Consume less, experience more – the BMW TwinPower Turbo engines offer the greatest possible dynamic performance with the greatest possible efficiency thanks to the newest injection systems, variable output control and sophisticated turbocharger technology. Whether diesel or petrol, and no matter how many cylinders, the engines from the BMW EfficientDynamics engine family allow markedly more agile power delivery and outstanding responsiveness even at low rpms, while being fuel-efficient and low in emissions.

MORE DRIVING PLEASURE, LESS EMISSIONS.
Approximately 33% less CO₂ emissions since 2000: BMW EfficientDynamics is a technology package that includes not only the engine and drivetrain, but rather the whole vehicle concept, including intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW has managed to reduce the CO₂ emissions of its fleet by 33%.

MORE SPEED, LESS WEIGHT.
Lower weight with intelligent lightweight construction. Special consideration for every last detail – intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre, BMW EfficientLightweight is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance, increased stability and heightened vehicle safety and comfort.

MORE ENERGY, LESS PETROL.
100% driving pleasure with 0% local emissions: BMW eDrive technology makes this dream come true. Energy for electric driving is supplied by a high-voltage lithium-ion battery and maximised by numerous efficiency measures such as Brake Energy Regeneration. The completely new synchronous electric motor BMW has developed for BMW eDrive provides plentiful torque for acceleration, available all the way to the car’s maximum speed, to combine sustainable mobility with outstanding agility and dynamic performance.

BMW EFFICIENT LIGHTWEIGHT
Intelligent lightweight construction at BMW means using the right material in the right places. And it’s a principle that applies to each and every component in the vehicle. This philosophy, also known as BMW EfficientLightweight, is now integral to BMW EfficientDynamics and is applied to every BMW as standard. In addition to increasing safety, the approach also contributes to higher performance as well as lower fuel consumption and emissions.

AUTOMATIC START/STOP FUNCTION
The Automatic StartStop function switches the engine off when the vehicle comes to a temporary standstill (at traffic lights or in a traffic jam, for instance) to further reduce overall fuel consumption. When the brake is released, the engine automatically starts again within a fraction of a second.

BRAKE ENERGY REGENERATION
Brake Energy Regeneration uses the energy that is created when the driver eases off the accelerator or brakes. Thus, the alternator is used efficiently, and kinetic energy that until now went unused can now be turned into electric energy to charge the battery. Fuel consumption is reduced and performance increases.

ECO PRO MODE
Depending on driving style, ECO PRO mode helps reduce fuel consumption by up to 20 percent, according to an internal BMW fuel consumption study. A further five percent can be saved through use of the coasting function, the Route-ahead Assistant and ECO PRO Route.

In the BMW 6 Series Gran Coupé and Convertible.
BMW Personal CoPilot
By your side, when you decide.

THE INNOVATIVE BMW ASSISTANCE SYSTEMS.
Enjoy the ultimate in comfort and safety with the BMW Personal CoPilot. Whether it’s for driving or parking, you can rely on BMW Personal CoPilot drive assistance systems in every situation. The most cutting-edge systems, such as radar, ultrasound and cameras, dependably register the vehicle’s surroundings, forming the basis for intelligent drive assistance systems. Either activated when desired, or as emergency assistance in the background – BMW Personal CoPilot assistance systems make every journey in your BMW even safer and more enjoyable.

CLOSER TO AUTONOMOUS DRIVING THAN EVER BEFORE.
Autonomous driving is not autopia, it is the future. All over the world BMW Personal CoPilot test vehicles are already driving completely independently without the driver’s intervention and not only show impressively how mobility will change in the near future – they also offer an outlook on the next level of driving pleasure. Even today, BMW Personal CoPilot already offers a large number of intelligent semi-automated assistants that actively support and relieve the driver in almost every driving situation.

SIMPLY PARK IT.
Intelligent parking assistance systems from BMW Personal CoPilot are available so that you don’t just look forward to every ride in your BMW, but also to parking. For example, the Parking assistant already displays suitable parking spaces as you drive past and, depending on the BMW model, runs the parking process either partially or completely independently. But here too, automation will continue to advance, so that in the future it will be possible for vehicles without drivers to search for a parking space and execute the parking process autonomously.

AUTOMATIC START/STOP FUNCTION.
The Automatic Start/Stop function switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to further reduce overall fuel consumption. When the driver moves his foot from the brake, the engine automatically starts up again within a fraction of a second.

PARKING ASSISTANT.
The Parking assistant option makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking assistant takes over the job, while the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes.

SPEED LIMIT INFO.
Speed Limit Info including No-overtaking indicator1,2 detects current speed limits and no-overtaking zones and shows them to the driver on the Info Display in the instrument cluster or on the BMW Head-Up Display3.

CONCIERGE SERVICE.
The Concierge Service4 connects the driver to a BMW call centre agent at the push of a button. The agent can locate a particular restaurant, the nearest cash dispenser or an emergency pharmacy and send the address details directly to the BMW navigation system.

BMW ConnectedDrive
Connected to be free.

CONNECTED FOR OVER 40 YEARS.
Focused on the future – from the very beginning. By the 1970s, BMW had already made headlines in connected mobility. Another milestone of the digital future was surpassed in 1996: vehicles with built-in SIM cards. Then came the first online functionality, Google Services and innovative display systems such as the BMW Head-Up Display. Throughout this process, the desires of the customer have always taken centre stage. In a first for a premium automobile manufacturer, BMW makes it possible to book and pay for services flexibly via the BMW ConnectedDrive Store, in the vehicle or on a computer at home. And with the introduction of BMW Connected and the Open Mobility Cloud, BMW is taking the next steps into the future of mobility.

MORE THAN 20 SERVICES IN THE BMW CONNECTED DRIVE STORE.
The ConnectedDrive Services equipment forms the basis for intelligent BMW ConnectedDrive functions. This equipment also provides access to the BMW ConnectedDrive Store, in which services can be ordered and extended easily, any time and anywhere to suit the user’s individual requirements – for example with the Concierge Service or Online Entertainment, which turn every drive into a convenient and entertaining experience.

IN TOUCH 24/7 WITH BMW CONNECTED.
What would it be like if you were never late again? What if your BMW already knew your preferred destinations? How would you like reliable navigation, whether you’re sitting in your vehicle or not? BMW Connected provides you with the information you want, when and where you want it. BMW Connected is a personal mobility assistant which facilitates your everyday mobility and aids you in reaching your destinations relaxed and on time. With the BMW Connected app, mobility-relevant information such as recommendations for optimal departure times are available at any time via smartphone or smartwatch and can be seamlessly transmitted to the car.

IN THE BMW 6 SERIES GRAN COUPÉ AND CONVERTIBLE.

IN THE BMW 6 SERIES GRAN COUPÉ AND CONVERTIBLE.

1 Only available in conjunction with additional equipment.
2 Available as optional equipment.
3 The display is not dependent on equipment installed. Further optional equipment is required to display this option.
4 Requires the optional BMW ConnectedDrive Services.

Online Entertainment
Via the integrated infotainment system, Online Entertainment offers constant access to more than 20 million music titles from our partners Napster or Deezer. In addition, the music is available wherever listening is convenient – even outside of the car. Easily and conveniently.

* Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.
Chassis.  
**A solid foundation for superior driving dynamics.**

A wide range of innovative technology in the BMW 6 Series line-up ensures that you thoroughly enjoy every journey. Many features are also intelligently networked, allowing you to experience maximum driving pleasure in the utmost safety.

The intelligent BMW xDrive all-wheel drive system adapts perfectly to even the most challenging road surface conditions, ensuring optimal traction at all times. xDrive and Dynamic Stability Control (DSC) ensure that the BMW remains safe and stable. Controlled via the DSC sensor system, xDrive flexibly and quickly distributes drive power between the axles in order to prevent oversteer or understeer on bends, thereby ensuring outstanding directional stability. Moreover, it guarantees a rapid, safe acceleration even on slippery or steep stretches. In critical road conditions, the DSC doesn’t need to intervene as much. BMW xDrive thus combines all the advantages of an all-wheel drive system – traction, directional stability and driving safety – with classic BMW agility.

The standard **Sport exhaust system** (not available for 640d and 640d xDrive) delivers a dynamic sound that can be adapted to the driving mode via integrated exhaust flap technology. SPORT and SPORT+, selected using Driving Experience Control, are accompanied by an even more intense sound, while the engine note is more discrete in the comfort-orientated settings.

The standard **eight-speed Steptronic Sport transmission** adapts to suit individual driving styles, ranging from comfortable coasting right through to the most dynamic. In SPORT mode, gear shifts are configured for peak performance. Additionally, Launch Control enables maximum acceleration by automatically up-shifting when the engine is at optimum speed.

**Integral Active Steering** combines variable Active Steering on the front axle with rear wheels that also contribute to steering based on speed. At lower speeds, it offers greater manoeuvrability and agility by turning the rear wheels in the opposite direction to the front wheels. From around 60 km/h, the rear wheels turn parallel to the front wheels, to increase stability and comfort.

**Adaptive Drive** combines the active body roll stabilisation functionality of Dynamic Drive and Dynamic Damper Control for need-based control of the stabilisers and dampers. It also provides maximum comfort while driving and more precise steering responses with less body roll. This allows the driver to take curves at greater speeds and enjoy shorter braking distances.

**Dynamic Damper Control** makes it possible to adapt the damper characteristics to suit any given driving situation. In the standard COMFORT mode, the dampers provide greater cushioning, while SPORT and SPORT+ modes feature much firmer settings for increased precision and more dynamic driving.

**Driving Experience Control** offers the driver the choice between the standard COMFORT mode, the more efficient ECO PRO mode, and the SPORT and SPORT+ modes, for an even more dynamic drive. ECO PRO mode adjusts the characteristics of the accelerator, a Steptronic transmission and the heating/air conditioning settings to make the drive as fuel-efficient as possible.
Safety.
Unparalleled safety with the latest BMW technology.

The BMW 6 Series models are full of cutting-edge technology that can always be relied on. Superb handling characteristics and innovative equipment come as standard, giving the driver exactly the right support for any situation. It all means that you can feel safe in all road conditions.

The BMW 6 Series Gran Coupé and Convertible are proof that elegance and safety make an ideal partnership. The very latest technology ensures that every drive is both comfortable and safe. For instance, the cornering lights with variable light distribution, included in the Adaptive LED headlights option, respond to your steering input for greatly improved visibility in every corner.

 Adaptive headlights with variable city and motorway light distribution, including cornering lights for optimal road illumination and BMW Selective Beam (anti-dazzle High-beam assistant) with automatic low and high beam.

 Dynamic Stability Control (DSC) uses sensors to constantly assess the vehicle’s movements and automatically stabilises the car with engine and braking regulation when unstable driving conditions are detected.

 The roll-over protection system1 includes roll bars integrated into the windshield frame, as well as concealed roll bars behind the rear headrests. When the vehicle threatens to roll over, a spring-loaded mechanism pushes out the roll bars in fractions of a second.

 The body is extremely rigid to ensure the best possible steering precision and dynamic agility. The front and rear are equipped with highly effective deformation zones.

 The tyre pressure indicator keeps the driver informed of pressure loss by means of a sensor. The air temperature is also monitored.

 The airbags for the driver and front passenger are an integral part of the optimally coordinated safety components in a BMW. Overall, up to six airbags provide targeted protection.

1 Only available for the BMW 6 Series Convertible.

Optional and standard equipment vary according to country.
EQUIPMENT: BMW Design Pure Excellence, BMW Design Pure Experience, M Sport package and BMW Individual, equipment highlights, wheels and tyres and Original BMW Accessories.

COLOURS: A world of colour for the exterior and interior.

Runflat tyres.
Elegant details: the leather-finished instrument panel with contrast stitching is beautifully balanced against the Poplar Grain Grey fine-wood trim.

Equipment

Interior equipment
- Seats² in Ivory White/Black Bicolour exclusive Nappa leather with extended features and contrast stitching, alternatively, seats² in Cognac/Black (Bicolour) exclusive Nappa leather with extended features and contrast stitching, other upholstery available.
- Contrast stitching with double-lapped seams in a colour complementing the upholstery on the upper part of the instrument panel, doors and side panels as well as the centre console.
- Poplar Grain Grey fine-wood trim; alternatively, Fineline Brown fine-wood trim; other interior trims available.
- Ceramic surrounds for controls (gear selector, iDrive Controller, audio and air conditioning).
- Instrument panel with leather finish.
- Ambient light with LED interior lights and illuminated doorsill finishers.

Exterior equipment
- Metallic paint.
- 19" light alloy wheels V-spoke 366 with mixed tyres; other wheels available.
- LED foglights.

Can be combined with all optional BMW interior trims¹, BMW Individual interior trims and all BMW Individual leather upholstery.

Can be combined with all paint colours, BMW 19" and 20" (optional) wheels and the 20" BMW Individual light alloy wheels V-spoke 374 I.

Illuminated doorsill finishers and colour-matched floor mats are included with the Design Pure Excellence package.

The BMW 6 Series Gran Coupé in the Jatoba metallic paint finish and with BMW 19" light alloy wheels V-spoke 366 with mixed tyres³.

Exceptional quality: ceramic surrounds for the gear selector, iDrive Controller, audio and air-conditioning controls.

The Poplar Grain Grey fine-wood trim blends exceptionally well with the interior.

19" light alloy wheels W-spoke 423 with mixed tyres. Front: 8.5 J x 19 with 245/40 R 19 tyres. Rear: 9 J x 19 with 275/35 R 19 tyres.³⁴

Can be combined with all paint colours, BMW 19" and 20" (optional) wheels and the 20" BMW Individual light alloy wheels V-spoke 374 I.

Optional and standard equipment vary according to country.

¹ Standard equipment

⁵ Options and standard equipment vary according to country.
The Sport leather steering wheel with multifunction buttons and chrome trim lies particularly well in the hands.

**DESIGN PURE EXPERIENCE.**

**Interior equipment:**
- Seats² in Cognac/Black (Bicolour) exclusive Nappa leather with extended features and contrast stitching; alternatively, seats³ in Ivory White/Black (Bicolour) exclusive Nappa leather with extended features and contrast stitching; other upholstery available.
- Finale Brown fine-wood trim; alternatively, Poplar Grey fine-wood trim; other interior trims available.
- Ambient light includes lights on the front door pockets, doors and side panels, upper side panels in the rear, illuminated storage compartment in the armrest, an additional light on the inside of the tailgate, as well as illuminated front door sill finishers with metal inlays, exterior door handles featuring chrome inserts and vicinity lighting on the doors.

**Exterior equipment:**
- Metallic paint
- 19" light alloy wheels Star-spoke 367 with mixed tyres; other wheels available
- BMW Individual high-gloss Shadow Line
- BMW kidney grille with exclusively designed slats with fronts in high-gloss Black, sides in matt Black and grille frame in chrome
- Front bumper with side air inlet surrounds and bars in high-gloss Black
- Rear apron with trim strip in high-gloss Black
- Exhaust tailpipe trim in Black chrome
- LED foglights

Can be combined with all optional BMW interior trims, BMW Individual interior trims and all BMW Individual leather upholstery.

Optional equipment:

- Aluminium Hexagon interior trim (4MR) not available in conjunction with Design Pure Experience.
- Design Pure Experience only available in conjunction with electrically adjustable front Comfort seats.

Standard equipment:

- 20" light alloy wheels V-spoke 616 with mixed tyres. Front: 8.5 J x 20 with 245/35 R 20 tyres. Rear: 9 J x 20 with 275/30 R 20 tyres².
**M SPORT PACKAGE.**

**Interior equipment:**
- M door sill finishers and M driver footrest
- Sport seats for driver and front passenger in Anthracite/Black Alcantara/Nappa leather combination; other upholstery available
- Comfort seats for driver and front passenger in Anthracite/Black Alcantara/Nappa leather combination; other upholstery available
- BMW Individual Anthracite headliner
- BMW Individual Alcantara or Alcantara Anthracite headliner
- M leather multifunction steering wheel
- Interior trim in Carbon Fibre; other interior trims available

**Equipment**
- Optional comfort seats for the driver and front passenger in Vermilion Red exclusive Nappa leather combine perfect lateral hold with high comfort.

Optional and standard equipment vary according to country.

**Exterior equipment:**
- 19" M light alloy wheels Double-spoke 351 M with mixed tyres
- 20" M light alloy wheels Double-spoke style 703 M, Bicolour with mixed tyres.
- M Aerodynamics package with front apron and side skirts in body colour and rear apron with diffuser insert in Dark Shadow metallic
- BMW Individual high-gloss Shadow Line
- M designation on the sides
- Exhaust tailpipes in dark chrome
- Brake calipers painted in black
- LED foglights
- Exclusive Carbon Black metallic paint finish

Can be combined with all BMW leather equipment as well as all BMW Individual leather upholstery.

Can also be combined with other BMW metallic paint finishes and BMW Individual paint finishes.

The M leather steering wheel with multifunction buttons and the optional Carbon Fibre interior trim give the interior a particularly sporty feel.

**Optional and standard equipment vary according to country.**

BMW Individual

The expression of personality.

Driving a BMW is, in itself, a mark of character. There are those who still, however, want their vehicles to be even more individual reflections of their personality. The BMW Individual Collection and the BMW Individual Manufaktur meet these needs by opening up seemingly limitless opportunities for differentiation.

Precisely in tune with each model, the BMW Individual Collection offers a highly exclusive selection of equipment options. Fascinating paint finishes either refracting the light or with a matt effect. Leather, unique in colour and scope of application, perfected with clever contrasts. Interior trims in the most exclusive fine woods or the immaculate Piano finish.

And yet even all this can be surpassed – thanks to the BMW Individual Manufaktur. Here, there is only one goal: realising almost any customer request, even the most personal, with stylish, hand-crafted perfection.
The third brake light of the BMW 6 Series Gran Coupé is integrated over the entire width of the roof edge, adding an unmistakable accent to the rear.

**EQUIPMENT HIGHLIGHTS.**

1. **The light generated by the LED fog lights is very similar to daylight and enables the driver to see better and drive more safely in inclement weather.**
   - Standard in conjunction with Design Pure Excellence, Design Pure Experience and M Sport package.

2. **The heated rear window can be lowered independently of the soft-top. It provides excellent ventilation and extra comfort for passengers in the rear.**
   - Only available for BMW 6 Series Convertible.

3. **The wind deflector provides the driver and front passenger with effective protection from draughts. When it is not needed, it can be stored compactly.**

4. **The large glass roof lets plenty of light into the car, creating the comfortable feeling of a generously proportioned, airy interior.**
   - Only available for BMW 6 Series Gran Coupé.

5. **Adaptive LED headlights provide significantly better illumination and visibility than conventional systems in every driving situation.**

6. **Gran Coupé** is elegantly positioned in the Hofmeister kink.

7. **Kidney grille with chrome surrounds and black slats (standard for the 640i/640i xDrive, 640d/640d xDrive) and in matt aluminium (standard for the 650i/650i xDrive) with chrome-look frames.**

8. **The intelligent BMW xDrive all-wheel drive system smoothly distributes variable drive power to the front and rear wheels.**

9. **With BMW Individual high-gloss Shadow Line, a host of features and design details are finished in high-gloss Black for particularly elegant looks.**

10. **The valve-operated, active Sport exhaust system delivers a discreet or full-bodied and dynamic engine sound – depending on the driving mode.**

11. **Trapezoidal tailpipes, visible, one on the left and one on the right-hand side, with chrome trim (standard for 650i/650i xDrive).**

12. **Exhaust tailpipe, circular, one on the left and one on the right-hand side, with chrome trim (standard for 640i/640i xDrive and 640d/640d xDrive).**

- Standard equipment  □ Optional equipment
Sport leather steering wheel, black, three-spoke, with trim in Pearl Chrome.

**EQUIPMENT HIGHLIGHTS.**

01. The instrument cluster features four analogue displays – speedometer, rev counter, fuel gauge and oil temperature – as well as an Info Display. The latter shows data such as the outside temperature and onboard computer functions.

02. The 8-speed Steptronic Sport transmission offers the choice between several driving modes and dynamic shifting via the gearshift paddles or gear lever.

04. BMW Individual leather steering wheel with wood inlay to match the BMW Individual interior trim.

07. Launch Control enables maximum acceleration from a standing start, with upshifts taking place automatically at the optimum engine speeds.

08. The iDrive Touch Controller: intuitive operation via the iDrive Controller touchpad.

09. The instrument panel with leather finish, including door panels, lends the interior a refined atmosphere.

10. COMFORT+ mode is available in conjunction with Dynamic Damper Control (optional) or Adaptive Drive (optional).

Further information on BMW ConnectedDrive, in particular, duration of services and costs, is available at [www.bmw.com/ConnectedDrive](http://www.bmw.com/ConnectedDrive).

Part of the ConnectedDrive Navigation package.

11. Real Time Traffic Information* 3 delivers almost instant traffic information on motorways, country roads and main roads, as well as numerous urban routes.

12. The Intelligent Emergency Call* automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed – without the use of a mobile phone.

13. Contrast stitching, complementing the respective upholstery colour, gives the interior an even more exclusive look.

Preparation for Apple CarPlay® supports the convenient and secure wireless use of an iPhone® via the vehicle’s user interface.

15. BMW Night Vision with person recognition warns when there are people or large animals on the road at night and represents the area in front of the vehicle as an infrared image on the Control Display.

Preparation for Apple CarPlay® supports the convenient and secure wireless use of an iPhone® via the vehicle’s user interface.

* Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.

16. BMW Night Vision with person recognition warns when there are people or large animals on the road at night and represents the area in front of the vehicle as an infrared image on the Control Display.

Preparation for Apple CarPlay® supports the convenient and secure wireless use of an iPhone® via the vehicle’s user interface.

* The compatibility and range of functions of Apple CarPlay® depend on the model year and the software version installed on the iPhone®. When the Apple CarPlay® preparation is in use, selected vehicle data is transferred to the iPhone®. The mobile phone manufacturer is responsible for any further processing of the data.

* The WiFi hotspot in the vehicle enables access to a tariff-based LTE-standard WiFi hotspot. Costs may vary by country, please consult your BMW partner.

* The WiFi hotspot enables creation of an in-car WiFi hotspot using the LTE standard, in conjunction with a chargeable data tariff (part of the ConnectedDrive navigation package*, not pictured).
The full-colour BMW Head-Up Display projects all information relevant to the journey directly into the driver’s field of vision.

**EQUIPMENT HIGHLIGHTS.**

**[ 01 ]** Speed Limit Info including No-overtaking indicator collects information on speed limits and overtaking rules and shows them to the driver.

**[ 02 ]** Lane Change Warning alerts the driver to vehicles in the blind spot as well as vehicles in the neighbouring lane by means of a visual signal and vibration in the steering wheel.

**[ 03 ]** Driving Assistant Plus includes the very latest warning and collision protection functions and offers additional comfort in monotonous traffic situations.

**[ 04 ]** Automatic air conditioning with 2-zone control allows individual temperature adjustment for the driver and front passenger.

**[ 05 ]** The Park Assistant makes parallel parking easier. It does the steering while the driver operates the accelerator and brakes.

**[ 06 ]** The Sport seats for driver and front passenger, featuring distinctive stitching, provide optimum lateral hold thanks to pronounced contouring of the backs and sides.

**[ 07 ]** Automatic air conditioning with 4-zone control allows passengers to individually adjust the temperature for every seat.

**[ 08 ]** Surround View is a visual parking aid that uses the camera-based functions Top View, Side View and the rear view camera.

**[ 09 ]** Telephony with Wireless Charging comprises, among other features, a cradle for wireless charging, Bluetooth, USB and NFC interfaces plus Bluetooth Office (part of the ConnectedDrive Navigation package*).

**[ 10 ]** Comfort seats for driver and front passenger are equipped with headrests in the optional Ivory White/Black (Bicolour) exclusive Nappa leather.

**[ 11 ]** Comfort seats for driver and front passenger include active headrests and can be specifically adjusted: the top part of the backrests, the backrest widths, thigh supports and headrest heights.

**[ 12 ]** The Bang & Olufsen high-end surround sound system enthrals listeners with its full sound, illumination effects and extendible centre speaker.

**[ 13 ]** Harman Kardon Surround Sound system with 600-watt digital amplifier, nine channels, vehicle-specific equalizer and 16 loudspeakers 5, including centre speaker.

**[ 14 ]** The seat heating for driver and front passenger heats the seat surface and middle section of the backrest to one of three levels, as desired.

**[ 15 ]** Ambient light is featured in areas such as the centre console storage compartment, the door pockets and panels, the door handles, the exit areas and the area in front of the doors.

**[ 16 ]** The through-loading system with a rear seat backrest that can be folded down in a 60:40 split offers variable, extendible transport options.

---

1 The visibility of the BMW Head-Up Display is limited by polarised sunglasses. Functionality shown is dependent on equipment. Further optional equipment is required for additional displays.

2 Only available in conjunction with Park Distance Control.

3 Inductive charging in the centre console smartphone holder meets the Qi standard for compatible mobile phones. Special holders for selected smartphones without Qi-standard inductive charging functionality are available from BMW Parts and Accessories.

4 Standard in conjunction with Design Pure Excellence and Design Pure Experience.

5 BMW 6 Series Convertible: 12 loudspeakers.

6 Only available in conjunction with the Rear view camera and interior and driver-side exterior mirrors with automatic anti-dazzle function.

7 May not be available in all countries. Please consult your BMW partner.

**Colour samples**

These samples are meant to give a first impression of paints and materials. Experience has shown, however, that printed versions of paint and upholstery colours cannot in all cases faithfully reproduce the appearance of the original. We therefore recommend that you consult your BMW partner on your preferred colour choices. They will be happy to show you samples and assist with any special requests.

640i  
640i xDrive  Gran Coupé
650i  
650i xDrive  Gran Coupé
640d 
640d xDrive  Gran ... and higher with a  
maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 95 super unleaded petrol.

BMW 6 Series Gran Coupé and BMW 6 Series Convertible available to order until 05/2018.

3 Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 95 super unleaded petrol.

2 The data for fuel consumption, CO₂ emissions and energy consumption were determined in accordance with the measurement procedures as defined by European Regulation (EC) 2007/715 in this applicable version. The data ranges account for differences according to the selected wheel and tyre sizes. Electronically limited.

1 The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg. Optional equipment may affect the actual total weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.

WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the Condition Based Service independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it’s really necessary. When you do go, our qualified BMW service specialists take care of your vehicle using the newest workshop technology and only original BMW parts. This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW SERVICE.

BMW Service Packages*: Individual and stress-free, just for you. Individual, well-thought-out servicing solutions carefully tailored to you and your vehicle. With one-off, predictable costs, BMW Service Packages give you complete peace of mind, so you can enjoy owning a BMW to the very fullest. Whether it’s from the showroom or already well-traveled – there’s a BMW Service Package for every phase of your vehicle’s life. All bringing you maximum quality, expertise and value retention, always at reasonable, transparent rates. And always carefully tailored to you and your BMW. Find out just how stress-free truly individual service can be! www.bmw.com/serviceinclusive

BMW Mobile Service*: This service is there for you day and night. As soon as you call, we spring into action, and take care of everything that may need doing after an accident or breakdown, with specially trained technicians working – on site or via telephone – to get your car back on the road. We offer comprehensive, country-specific mobility packages for breakdowns, and insurance that covers you in the event of an accident or theft. So if anything untoward does happen, simply call up the BMW accident hotline and we’ll go to work. We’ll take care of calling the emergency services, a tow truck, a replacement car, notifying your insurance company and much more. For further information please visit www.bmw.com

BMW TV*: www.bmw.tv enables you to experience the BMW brand and the richness of modern life. Learn for yourself what it means to be part of the BMW brand. Through BMW TV* you can experience the handover of your new BMW, explore the BMW Museum, test drive our latest Driving Experience offers, meet people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

BMW Financial Service.

BMW Financial Services*: Mobility solutions to meet your needs. BMW Financial Services provides you with attractive leasing, finance and insurance options. To find out more, see the price list or go to www.bmfs.com. Your BMW partner will also be glad to draw up an individual offer for you in person.

In 2017, the BMW Group was once more listed in the Dow Jones Sustainability Index. This makes BMW Group the only company in the automotive industry to be listed without interruption since the index was established. The development of efficient vehicle concepts and environmentally friendly production processes, including recycling, is an integral part of our philosophy. BMW EfficientDynamics and electric vehicles have enabled us to cut CO₂ emissions from our European new-vehicle fleet by more than 42% since 1995. We have also reduced the amount of resources used in production, such as water and energy, by round 34% between 2006 and 2017, with a reduction to 45% of previous levels aimed at for 2020. In terms of other resources (such as volatile organic compounds, process wastewater and waste) our 45% target was met in 2014, and we will continue to work on further improvement. Production at our engine plant in Steyr has been waste-water free since 2007. And of course, at the end of its service life, every one of our vehicles can be easily and economically recycled. To return your end-of-life vehicle, please contact your BMW partner. For more information on this issue please visit our website.
