DIGITAL DISCOVERY: THE NEW BMW BROCHURES APP.

More information, more driving pleasure: The new BMW brochures app offers you a brand new digital and interactive BMW experience. Download the BMW brochures app for your smartphone or tablet now and explore new perspectives of your BMW.

NEW SHEER DRIVING PLEASURE

HIGH PERFORMANCE SOCIETY.

INNOVATION AND TECHNOLOGY.

16 M TWIN POWER TURBO ENGINE: Power with maximum efficiency.
18 AERODYNAMIC DESIGN AND BMW EFFICIENT LIGHTWEIGHT CONSTRUCTION: The art of engineering.
20 CHASSIS: Innovative systems for more driving pleasure.
22 BMW CONNECTED DRIVE/ BMW PERSONAL COPILOT: Digital Services & Driver Assistance.

INDIVIDUALITY AND VERSATILITY.

26 EQUIPMENT: Equipment highlights and BMW Individual.
36 COLOURS: A world of colour for the exterior and interior.
40 TECHNICAL DATA: Weight, engine, transmission, performance, fuel consumption, wheels and dimensions.
42 BMW SERVICE: BMW Service, BMW Financial Services and BMW Experience.

For further information on fuel consumption and CO₂ emissions, please see pages 40 | 41.

Internet use, depending on your mobile contract, may incur costs.
The BMW M6 – one of a kind, times two. All it takes is the touch of a button and 600 hp (441 kW) is ready to give its all. The focal point of this astonishing performance is being surrounded by luxurious materials and perfect craftsmanship. Whether you choose the Gran Coupé or the Convertible, you will experience the perfect symbiosis of performance and exclusivity, dynamism and prestige. Welcome to the most powerful BMW M6 of all time.
MASTERFUL POWER – ON A MAJOR SCALE.
A CONSUMMATE COMPOSITION. FOR AN AUDIENCE OF ONE.

As individual as your fingerprint. The striking BMW M kidney grille with the exclusive M double slats and chromed insert bars (only for the BMW M6 Gran Coupé) captures the attention. The rear profile has a commanding majesty that leaves a long-lasting impression. And your own inimitable character occupies the space in between. With BMW Individual, your BMW M6 can become a true, one-of-a-kind masterpiece thanks to a very special collection of paint finishes, upholstery choices and trims. And yet, you can still take things further: the BMW Individual Manufaktur can transform almost any request you can imagine into breathtaking reality.
THE BEST CONCERTS ARE OPEN AIR.
A VIEW THAT ALWAYS CALLS FOR AN ENCORE.

Powerful elegance, pitch-perfect. The street sets the stage. All eyes follow the BMW M6 Convertible. Its wide track sets up the perfect stance. The M-specific side skirts and the black, chrome-plated twin tailpipes, specially from the optional Competition package*, express pure dynamism. And every touch of the accelerator pedal is met with unrestrained vigour. Make yourself comfortable in the driver’s seat. The outlook couldn’t be better – before you the street, above you the sky.

* May not be available in all countries. Please consult your BMW partner.
INNOVATION AND TECHNOLOGY.

**M TWIN POWER TURBO ENGINE:** Power with maximum efficiency.

**AERODYNAMIC DESIGN AND BMW EFFICIENT LIGHTWEIGHT CONSTRUCTION:** The art of engineering.

**CHASSIS:** Innovative systems for more driving pleasure.

**BMW CONNECTED DRIVE:** Digital Services & Apps.

**BMW PERSONAL COPILOT:** Intelligent Driver Assistance Systems.
BMW M TwinPower Turbo technology combines great performance with impressive efficiency. Outstanding responsiveness, linear power delivery, high-revving character and tremendous thrust are all hallmarks of the eight-cylinder petrol unit from the EfficientDynamics engine family. Powerful torque is on tap from just above idle right through to the upper reaches of engine speed. The result: more than enough power in every situation and thrilling, high-rpm performance.

With 412 kW (560 hp) and up to 680 Nm of torque, the M TwinPower Turbo 8-cylinder petrol engine leaves no room for doubt about its performance, and it accelerates the vehicle from 0 to 100 km/h in just 4.2 seconds (Gran Coupé, Convertible: 4.3 seconds). The 4.4-litre engine is distinguished by impressively direct responsiveness and high torque even at low rpms, so that even the lightest pressure on the accelerator gives a foretaste of its energetic thrust and power.
Aerodynamic design and BMW EfficientLightweight construction.
The art of engineering.

Comprehensive and fully coordinated aerodynamics measures, particularly at higher speeds, optimise driving dynamics, stability and control in M vehicles.

BMW EfficientLightweight construction is of the highest priority with M vehicles. This is because the lowest possible unladen weight is the foundation for outstanding driving dynamics and exemplary efficiency. BMW M has applied unrelenting focus on achieving this goal and, as a result, has seen continual improvement. The key questions that have always faced the engineers: where does it make sense to save weight? And where not? The answer: intelligent lightweight construction.

As part of the BMW intelligent lightweight construction concept, the Carbon roof made of carbon fibre reinforced plastic (CFRP) helps to reduce the vehicle’s weight, shifting the car’s centre of gravity lower. This leads to an increase in agility and dynamics when taking a bend, accelerating and braking.

The carbon diffuser creates aerodynamic downforce at the rear of the car at high speeds, thereby providing added traction. The ultra-light, visible CFRP lends the rear a highly athletic appearance and is also a clear sign of the commitment of BMW M to lightweight construction.

1 Only available for the BMW M6 Gran Coupé.
Chassis.
A solid foundation for superior driving dynamics.

Conventional rules don’t apply to the BMW M6 Gran Coupé and the BMW M6 Convertible: Developed in-house by BMW M GmbH, they fully embody the M philosophy, offering a perfect synthesis of superb performance and everyday usability. The sophisticated M high-performance chassis, re-designed from the ground up, are at the core of this compelling proposition.

The intelligent networking of chassis components and control systems ensures maximum driving dynamics and agility as well as exceptionally high precision and control. Experience fascinatingly authentic driving feel.

M Servotronic adjusts the power steering to suit the current speed and ensures a direct and precise steering response even at high speeds. It also ensures supreme comfort by minimising the physical effort required for steering when parking, manoeuvring or navigating narrow alleyways or twisting roads.

Shift gears without losing power, using the clutch or slowing down – thanks to the M double-clutch transmission with Drivelogic. Gears can be changed automatically or manually using the gearshift paddles on the M leather steering wheel or the gear selector in the centre console. The additional Launch Control function ensures optimal acceleration from a standing start.

The optional M Carbon ceramic brake system delivers braking power more directly. It is non-corrosive, very resistant to abrasion, tolerates more heat and contributes to a lower vehicle weight, which has a positive impact on agility, dynamics and acceleration. Matt Gold-coloured brake calipers with the M logo make this special technical equipment visible from outside the car.

M dynamic mode, a sub-function of Dynamic Stability Control (DSC), allows a certain degree of wheel slip, thereby noticeably improving driving dynamics. While DSC works against understeer and oversteer, the M dynamic mode enables the full exploitation of the car’s maximum longitudinal and lateral dynamic potential. However, access to the support offered by DSC is retained.

The Dynamic Damper Control makes it possible to adapt the damper characteristics to suit any given driving situation. In the standard COMFORT mode the dampers provide greater cushioning, while the SPORT and SPORT+ modes feature much tighter settings for greater precision and improved driving dynamics.

The Active M Differential optimises traction and driving stability when changing lanes or accelerating out of curves, when taking corners at high speeds or on roads with uneven surfaces. Traction is optimised via an electronically controlled device that reduces the difference in revolution speed between the rear wheels.

1 Depending on conditions and usage, features specific to the materials used can lead to operational noises, particularly in wet conditions, just before the vehicle comes to a halt. The impact of moisture and road salt can cause the braking action to be equivalent to a conventional brake system. This can, for a short time, be experienced as a reduction in braking action and can be balanced out by greater pressure on the pedal as necessary.
Innovation and technology

THE INNOVATIVE BMW ASSISTANCE SYSTEMS.

Enjoy the ultimate in comfort and safety with the BMW Personal CoPilot. Whether it’s for driving or parking, you can rely on BMW Personal CoPilot’s driver assistance systems in every situation. The most cutting-edge systems, such as radar, ultrasound and cameras, dependably register the vehicle’s surroundings, forming the basis for intelligent driver assistance systems. Either activated when desired, or as emergency assistance in the background – BMW Personal CoPilot assistance systems make every journey in your BMW even safer and more enjoyable.

BMW ConnectedDrive

BMW ConnectedDrive is required for additional displays.

CONCIERGE SERVICE.

The Concierge Service connects the driver to a BMW call centre agent at the push of a button. The agent can locate a particular restaurant, the nearest cash dispenser or an emergency pharmacy and send the address details directly to the instrument cluster or on the BMW Head-Up Display.

BMW M LAPTIMER.

The App equipment feature enables the safe and convenient use of selected smartphone apps in the car. This includes apps developed by BMW, such as BMW Connected, as well as apps from third-party suppliers like Spotify, Napster, Deezer and Audible. It brings the world of smartphone apps into the vehicle.

ONLINE ENTERTAINMENT.

Via the integrated infotainment system, Online Entertainment offers constant access to more than 30 million music titles from our partners Napster or Deezer. In addition, the music is available wherever listening is convenient – every other supported device also has access to the music titles, even outside of the car. Easily and conveniently.

IN THE BMW M6 GRAN COUPÉ AND CONVERTIBLE.

Car慶祝生日会

PARKING ASSISTANT.

The Parking assistant option makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking assistant takes over the control, the driver is responsible for selecting the correct gear, as well as pressing the accelerator and brakes.

SPEED LIMIT INFO.

Speed Limit Info including No-overtaking indicator detects current speed limits and no-overtaking zones and shows them to the driver on the Info Display in the instrument cluster or on the BMW Head-Up Display.

IN THE BMW M6 GRAN COUPÉ AND CONVERTIBLE.

BMW Personal CoPilot

By your side, when you decide.

CLOSER TO AUTONOMOUS DRIVING THAN EVER BEFORE.

Autonomous driving is not utopia, it is the future. All over the world, BMW Personal CoPilot test vehicles are already driving completely independently without the driver’s intervention and not only show impressively how mobility will change in the near future – they also offer an outlook on the next level of driving pleasure. Even today, BMW Personal CoPilot already offers a large number of intelligent semi-automated assistants that actively support and relieve the driver in almost every driving situation.

SIMPLY PARK IT.

Intelligent parking assistance systems from BMW Personal CoPilot are available so that you don’t just look forward to every ride in your BMW, but also to parking. For example, the Parking assistant already displays suitable parking spaces as you drive past and, depending on the BMW model, runs the parking process either partially or completely independently. But here too, automation will continue to advance, so that in the future it will be possible for vehicles without drivers to search for a parking space and execute the parking process autonomously.

CONNECTED FOR OVER 40 YEARS.

Focused on the future – from the very beginning. By the 1970s, BMW had already made headway in connected mobility. Another milestone of the digital future was surpasses in 1999: vehicles with built-in SIM cards. Then came the first online functionality: Google Services and innovative display systems such as the BMW Head-Up Display. Throughout this process, the desires of the customer have always been at the core. Today, BMW provides over 10 million vehicles with the BMW ConnectedDrive Store, in the vehicle or on mobile devices. With the introduction of BMW Connected and the Open Mobility Cloud, BMW is taking the next steps into the future of mobility.

MORE THAN 20 SERVICES IN THE BMW CONNECTED DRIVE STORE.

The ConnectedDrive Services equipment forms the basis for intelligent BMW ConnectedDrive functions. This equipment also provides access to the BMW ConnectedDrive Store, in which services can be ordered and extended easily, any day and anywhere to suit the user’s individual requirements – for example with the Concierge Service or Online Entertainment, which turn every drive into a convenient and entertaining experience.

IN TOUCH 24/7 WITH BMW CONNECTED.

What would it be like if you were never late again? What if your BMW already knew your preferred destinations? How would you like reliable navigation, whether you’re sitting in your vehicle or not? BMW Connected provides you with the information you want, when and where you want it. BMW Connected is a personal mobility assistant which facilitates your everyday mobility and aids you in reaching your destinations relaxed and on time. With the BMW Connected app, mobility-relevant information such as recommendations for optimal departure times are available at any time via smartphone or smartwatch and can be seamlessly transmitted to the car.

AUTOMATIC START/STOP FUNCTION.

The Automatic Start/Stop function switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to further reduce overall fuel consumption. When the driver presses down on the clutch (manual transmission) or takes their foot off the brake (Systeptonic transmission), the engine automatically starts up again in a fraction of a second.

ONLINE ENTERTAINMENT.

Via the integrated infotainment system, Online Entertainment offers constant access to more than 30 million music titles from our partners Napster or Deezer. In addition, the music is available wherever listening is convenient – every other supported device also has access to the music titles, even outside of the car. Easily and conveniently.

BMW Individual
The expression of personality.

Driving a BMW is, in itself, a mark of character. There are those who still, however, want their vehicles to be even more individual reflections of their personality. The BMW Individual Collection and the BMW Individual Manufaktur meet these needs by opening up seemingly limitless opportunities for differentiation.

Precisely in tune with each model, the BMW Individual Collection offers a highly exclusive selection of equipment options. Fascinating paint finishes, either refracting the light or with a matt effect. Leather, unique in colour and scope of application, perfected with clever contrasts and decorative stitching. Interior trims in the most exclusive fine woods or the immaculate Piano finish.

And yet even all this can be surpassed – thanks to the BMW Individual Manufaktur. Here, there is only one goal: realising almost any customer request, even the most personal, with stylish, hand-crafted perfection.

EQUIPMENT HIGHLIGHTS.

01  The Bang & Olufsen high-end surround sound system enthrals with its full sound, illumination effects and extendible centre speaker.1

02  The BMW M laptimer app precisely records racetrack driving data such as accelerator position, steering angle, G-force and best lap times.

03  The BMW M laptime app precisely records racetrack driving data such as accelerator position, steering angle, G-force and best lap times.

04  Stay focused on what’s important – the M-specific instrument cluster with Black Panel technology includes four round instruments and several displays.

05  The M double-clutch transmission with Drivelogic offers traction-optimised automatic gear selection, Launch Control, Lane Assist and the Automatic Start/Stop function.

06  The output of the M TwinPower Turbo eight-cylinder petrol engine has been increased from 412kW to 441kW. This enhanced performance is achieved, among other measures, by raising the boost pressure in the upper rev range.

07  The full-colour BMW Head-Up Display with M specific display transmits important information directly into the driver’s line of vision.

08  The M multifunction seats in full leather offer perfect lateral support, even during highly dynamic driving.

09  Thanks to an enhanced engine output, more direct steering and a specially tuned suspension, the Competition package offers a noticeable increase in driving dynamics. The modified M Sport exhaust system with black, chrome-plated twin tailpipes creates a powerful, full sound that is destined to thrill. The package also includes exclusive 20” M light alloy wheels with mixed tyres.

10  Preparation for Apple CarPlay® supports the convenient and secure wireless use of an iPhone® via the vehicle’s user interface.

11  The Sport exhaust system delivers a full-bodied and sporty engine note for guaranteed goosebumps.

---

1 16 loudspeakers with output of 1,200 watts in the BMW M6 Gran Coupé.
2 12 loudspeakers with output of 1,000 watts in the BMW M6 Convertible.
3  Compatibility and functionality of Apple CarPlay® is dependent on model year and the software status of the iPhone®.
4  The information in the BMW Head-Up Display is not fully visible when wearing polarised sunglasses. The exact content shown will depend on the equipment options chosen.

1. Figures quoted are based on a 90% full tank and a driver weight of 75kg. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase actual vehicle mass.
2. BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher (with a maximum ethanol content of 10% (E10)) may also be used. Performance and fuel consumption data apply to vehicles using RON 98 fuel.
3. All engines comply as standard with the EU6 standard. Fuel consumption is determined in accordance with the ECE driving cycle. This is made up of approximately 65% urban and 35% extra-urban driving. Based on distance covered, CO₂ emissions are measured in addition to fuel consumption. Optional equipment may increase these figures. CO₂ emission figures are dependent on tyre type (high-performance figures refer to models with optional wheels).
4. Electronically restricted.
When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the Condition Based Service independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it’s really necessary. When you do go, our qualified BMW service specialists take care of your vehicle using the newest workshop technology and only original BMW parts. This service is available worldwide in more than 13,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

**BMW SERVICE.**

**BMW Service Packages**: Individual and stress-free, just for you. Individual, well-thought-out servicing solutions, carefully tailored to you and your vehicle. With one-off, predictable costs. BMW Service Packages give you complete peace of mind, so you can enjoy owning a BMW to the very fullest. Whether it’s fresh from the showroom or already well-travelled – there’s a BMW Service Package for every phase of your vehicle’s life. All bringing you maximum quality, expertise and value retention, always at reasonable, transparent rates. And always carefully tailored to you and your BMW. Find out just how stress-free truly individual service can be! www.bmw.com/serviceinclusive

**BMW Mobile Service**: This service is there for you day and night. As soon as you call, we spring into action, and take care of everything that may need doing after an accident or breakdown, with specially trained technicians working – on site or via telephone – to get your car back on the road. We offer comprehensive, country-specific mobility packages for breakdowns, and insurance that covers you in the event of an accident or theft. So if anything untoward does happen, simply call up the BMW accident hotline and we’ll go to work. We’ll take care of calling the emergency services, a tow truck, a replacement car, notifying your insurance company and much more. For further information please visit www.bmw.com

**BMW TV**: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and Lifestyle topics.

**BMW Driving Experience**: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car’s physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit www.bmw/drivingexperience

**BMW Welt**: Picking up a car at BMW Welt has always ranked among the best moments for any driver. Turn this moment into one whole unforgettable day - experience the handover of your new BMW as just one part of a programme of activities perfectly tailored to your interests. At BMW Welt, the BMW Group plant, the BMW Museum, the BMW Group headquarters and the BMW Group Classic all combine to provide you with a great experience of an exciting history, a breathtaking present – and spectacular visions for the future. Find out more at www.bmw-welt.com/en

**BMW Magazine**: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

**BMW Mobile Solutions**: With Condition Based Service, you’ll be automatically reminded of your next necessary service appointment on the vehicle screen. Provided you’ve consented, key vehicle data will be relayed to BMW automatically for analysis. Your assigned BMW service partner will access the information and contact you if free of charge to make a service appointment as and when necessary. To access BMW Teleservices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. The service can be deactivated at any time you so desire, and you can change your service partner in the Drive menu or ConnectedDrive portal. Find out more at www.bmw.com/teleservices

**BMW Mobile Services**

**BMW Financial Service**: Mobility solutions to meet your needs. BMW Financial Services provides you with attractive leasing, finance and insurance options. To find out more, see the price list or go to www.bmfs.com. Your BMW partner will also be glad to draw up an individual offer for you in person.

In 2017, the BMW Group was once more listed in the Dow Jones Sustainability Index. This makes BMW Group the only company in the automotive industry to be listed without interruption since the index was established. The development of efficient vehicle concepts and environmentally-friendly production processes, including recycling, is an integral part of our philosophy. BMW EfficientDynamics and electric vehicles have enabled us to cut CO₂ emissions from our European new-vehicle fleet by more than 42% since 1995. We have also reduced the amount of resources used in production, such as water and energy, by round 34% between 2006 and 2017, with a reduction to 45% of previous levels aimed at for 2020. In terms of other resources (such as volatile organic compounds, process wastewater and waste) our 45% target was met in 2014, and we will continue to work on further improvement. Production at our engine plant in Steyr has been waste-water free since 2007. And of course, at the end of its service life, every one of our vehicles can be easily and economically recycled. To return your end-of-life vehicle, please contact your BMW partner. For more information on this issue please visit our website.
