1 Available as optional equipment.
2 The WiFi hotspot fulfils all in-vehicle requirements for use of the internet with the maximum LTE standard. Usage is subject to cost.
3 Supports inductive charging for Qi-compatible mobile phones. Special charging cases are available from Original BMW Accessories for selected smartphones that do not support the Qi standard for inductive charging.

Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.
HAPPINESS INCREASES WHEN YOU SHARE IT.

OPTIONAL THIRD ROW OF SEATS OR A MAXIMUM OF 1905 LITRES LUGGAGE COMPARTMENT VOLUME1 || LONGITUDINALLY ADJUSTABLE REAR SEAT2-3-4 || GENEROUS SPACIOUSNESS || PANORAMA GLASS ROOF2

1 Only available for BMW 2 Series Gran Tourer.
2 Available as optional equipment.
3 Not available for BMW 225xe.
4 Standard for BMW 2 Series Gran Tourer.
FOR A LIFE WITH A DRIVE.

SPORTY DESIGN OCCUPIES SPACE. THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER SHOW SIZE AND AT THE SAME TIME ESPECIALLY LOOK VERY GOOD. THEY OFFER LOTS OF SPACE FOR YOUR ACTIVE LIFESTYLE, WITHOUT NEEDING TO SUBSTITUTE ANYTHING ELSE FOR IT. NEITHER IN THE BMW TYPICAL DRIVING DYNAMICS OR IN THE SPORTY AND EXPRESSIVE DESIGN.

IN ADDITION, YOU BENEFIT FROM FLEXIBILITY THAT ADAPTS TO YOUR NEEDS. REGARDLESS WHETHER YOU TRAVEL WITH SEVEN PEOPLE1, 2 OR LOTS OF LUGGAGE, THE FUN DOESN'T REMAIN ON THE TRACK, BUT IS IN THE CENTRE – IN THE FRONT LEFT-HAND SIDE ON THE DRIVER'S SEAT. EXPERIENCE SPORTY FUNCTIONALITY IN THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER.

1 Available as optional equipment.
2 Only available for BMW 2 Series Gran Tourer.
DYNAMICS AND EFFICIENCY.

MORE POWER FROM LESS FUEL.

More power from three to 12 cylinders. Consume less, experience more – the BMW TwinPower Turbo engines offer the greatest possible dynamic performance with the greatest possible efficiency thanks to the newest injection systems, variable output control and sophisticated turbocharger technology. Whether diesel or petrol, and no matter how many cylinders, the engines from the BMW EfficientDynamics engine family allow markedly more agile power delivery and outstanding responsiveness even at low rpm, while being fuel-efficient and low in emissions.

MORE DRIVING PLEASURE, LESS EMISSIONS.

BMW EfficientDynamics is a technology package that includes not only the drive, but rather the whole vehicle concept and intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW has managed to reduce the CO₂ emissions of its fleet significantly.

MORE DYNAMICS, LESS WEIGHT.

Lower weight with intelligent lightweight construction. Special consideration for every last detail – intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre, BMW EfficientLightweight is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance, increased stability and heightened safety and comfort.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

AUTOMATIC START/STOP FUNCTION

The Automatic StartStop function1 switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam), which can reduce overall fuel consumption. When the driver presses down on the clutch (manual transmission) or takes their foot off the brake (Steptronic transmission), the engine automatically starts up again in a fraction of a second.

DRIVING EXPERIENCE CONTROL INCL. ECO PRO MODE

The Driving Experience Control lets the driver choose between the standard COMFORT mode, ECO PRO Mode which is geared towards efficiency, and SPORT mode which enables even more dynamic driving. ECO PRO mode adjusts the characteristics of the accelerator, Steptronic transmission, if present, and the heating/cooling conditioning settings to make the drive as fuel-efficient as possible.

OPTIMUM SHIFT INDICATOR

The Optimum Shift Indicator² shows the most efficient gear for a given driving situation. In all BMW models, the display informs the driver of the current gear and gives shifting recommendations. This noticeably lowers fuel consumption through perfectly timed gearshifts, particular in urban environments and over long distances.

DRIVETRAIN AND SUSPENSION.

THE ENGINE HIGHLIGHTS OF THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER

BMW 218i Active Tourer
BMW TwinPower Turbo 3-cylinder petrol engine with 100 –103 kW (136 –140 hp) and 220 Nm torque
Top speed: 205 km/h [205] km/h
Acceleration 0 –100 km/h: 9.3 s [9.3] s
Combined CO₂ emissions: 125 –130 [117–121] g/km

BMW 220d xDrive Gran Tourer
BMW TwinPower Turbo 4-cylinder diesel engine with 120 –140 kW (163–190 hp) and 400 Nm torque
Top speed 5-seater | 7-seater: [208|218] km/h
Acceleration 0 –100 km/h 5-seater | 7-seater: [7.8|8.7] s
Combined fuel consumption 5-seater | 7-seater: [4.8 – 5.0|4.5 – 4.9] l/100 km
Combined CO₂ emissions 5-seater | 7-seater: [126 –131|112–118] g/km

The intelligent BMW xDrive all-wheel drive system smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution for instance counterbalances oversteer or understeer on bends.

The Performance Control intervenes through engine control and controlled braking when turning, so that more power is distributed to the outer wheels and less to the inner wheels. This means that the vehicle practically turns itself, thus increasing driving safety and comfort.

The Driving dynamics control systems support the driver in all difficult driving situations. The ABS prevents the wheels from being blocked, ensuring the car can be steered even during emergency braking. The anti-skid system Dynamic Stability Control (DSC) counters loss of grip in the wheels, automatically braking individual wheels.

The optional Variable sport steering³,⁵ with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and reduces the effort needed to steer when parking and turning.

The Adaptive suspension³,⁶ combines driving dynamics and ride comfort with a high degree of safety. The driver has the option of preselecting the damper characteristics via the Driving Experience Control. Along with the standard COMFORT setting, SPORT mode is also available.

M Sport suspension³,⁶ – which includes a chassis which is lowered by 10 millimetres – is characterised by an athletic suspension design. In addition to shorter bearing springs, it also encompasses tighter damper settings.

Further information on fuel consumption and CO₂ emissions can be found in technical data or consult your local BMW partner.

1 Not available for BMW 225xe.
2 Available as optional equipment.
3 Available as standard equipment.
4 Available as optional equipment.
5 Servotronic is available as standard equipment on the M Sport models.
6 Adaptive suspension is available as standard equipment on BMW M models. Further information on current availability and prices can be found in technical data or consult your local BMW partner.
SAFETY.

Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.

Innovation and Technology 20 | 21

**DRIVER ASSISTANCE.**

BMW Personal CoPilot
By your side, when you decide.

The safety package Driving Assistant includes camera-based assistance systems, such as Lane Departure Warning, Approach control warning, High-beam assistant and Speed Limit Info. The Approach control warning and Person warning with light city braking function warns of collisions at speeds between 10 and 60 km/h, while the Lane Departure Warning causes the steering wheel to vibrate as a warning when the lane is unintentionally changed at 70 km/h or over.

Speed Limit Info including No-overtaking indicator detects current speed limits and no-overtaking zones and shows them on the Info Display in the instrument cluster and on the BMW Head-Up Display.

The Lane Departure Warning detects lane markings and alerts the driver before an unintentional lane change at speeds above around 70 km/h by means of vibrations in the steering wheel. If the indicator is activated, meaning that a change of lane is intended, no warning is given.

The Driving Assistant Plus equipment provides a clear improvement in safety and comfort. It includes the Approach control warning and Person warning with light city braking function, Lane Departure Warning, the High-beam assistant, the Speed Limit Info, camera-based Cruise control with Stop&Go function as well as the Traffic jam assistant.

The full-colour BMW Head-Up Display projects relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info including No-overtaking indicator and telephone and entertainment lists, among other things are displayed, depending on the equipment.

The Parking assistant makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over steering, while you are responsible for selecting the correct gear, as well as pressing the accelerator and brake.

The Intelligent Emergency Call automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed — without the use of a mobile phone. It transmits information regarding the vehicle’s current location and the severity of the accident. The Intelligent Emergency Call can also be triggered manually in case other road users require help, for example.

The Adaptive LED headlights include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective High-beam assistant and Speed Limit Info. The full-colour BMW Head-Up Display projects relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info including No-overtaking indicator and telephone and entertainment lists, among other things are displayed, depending on the equipment.

Traffic jam assistant relieves you in monotonous traffic situations on the motorway. At speeds of up to 60 km/h, the system lets the car simply “glide along” with the other cars in dense traffic, making traffic jams less stressful. It automatically maintains the distance from the vehicle ahead and regulates the car’s speed down to a standstill — as well as providing steering support.

Approach control warning with light city braking function warns of potentially critical situations to help prevent accidents. If there is a risk of collision with a vehicle moving or standing ahead, it provides a two-stage warning and, if necessary, pre-conditions the brakes for increased responsiveness. In case of an emergency, the system initiates braking, ensuring that the collision speed is significantly reduced.

The head airbags for the first and second seat row complete the vehicle’s airbag equipment. With a protective sail that deflects flying shards, it creates a highly effective head protection system for the window area that also protects the rear passengers in the event of a side collision.

Dynamic Stability Control (DSC) continuously assesses the vehicle’s movements using various sensors and stabilises the car with engine and braking regulation when unstable driving conditions are detected. Auxiliary functions include braking readiness, brake drying by the braking system in wet conditions and the Hill-Start assistant.

Adaptive LED headlights include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective High-beam assistant and Speed Limit Info. The full-colour BMW Head-Up Display projects relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. CONNECTIVITY AND INFOTAINMENT.

BMW ConnectedDrive
So connected, you’re free.

MORE THAN 20 SERVICES AND APPS IN THE BMW CONNECTED DRIVE STORE.

BMW ConnectedDrive opens the gate to the digital world of BMW. Use vehicle apps such as news, weather, office or online search on the go and be well informed at all times. Via the ConnectedDrive Store or directly in your BMW, you can book additional digital services such as Connected Music or Concierge Service – anytime, anywhere, easily and flexibly.

IN TOUCH WITH BMW CONNECTED.

Are the doors of my car really locked, when should I leave my office to arrive in time for dinner at the fancy Italian restaurant and how will I find my way there? As your personal mobility assistant, the BMW ConnectedApp can easily help you with all these questions. It connects you directly with your car, giving you access before and during your trip to numerous functions, which make every drive simpler and more comfortable.

CONCIERGE SERVICE
Will it be sunny tomorrow in Rome? When is my flight and where is the best restaurant in the city? Concierge Services* are there to help when you are travelling and can support you with any request at the touch of a button – individual, personal and fast. Wherever you are, whatever you need. The term is three years.

TIME-TO-LEAVE NOTIFICATION
Always arrive on time for your next appointment. The ‘time to leave’ notification on the BMW Connected app* reminds you in advance when to set off, communicating with your smartphone or smartwatch. Real-time traffic information helps to calculate the optimal departure time to ensure that you reach your destination on time.

APPLE CAR PLAY® PREPARATION
Why go without the features of your iPhone in your BMW when you can continue operating it as usual? The preparation for Apple CarPlay® gives you remote access to telephony as well as apps like (message, WhatsApp, TuneIn, Spotify and Apple Music. You can also use the voice button on the steering wheel to access Siri, Apple’s voice assistant.

The Comfort access system allows passengers to enter the car via the front doors and to open the tailgate without having to actively use the key. The key must simply be nearby, in the driver’s trouser pocket for example. To unlock the doors, it is only necessary to touch the handles or the tailgate button.

The Electronic parking brake is conveniently activated via a button. Thanks to this space-saving saving, the centre console has more room available for other things.

The Sun protection glazing for the rear window** and tinted rear side windows prevent the interior from heating up when exposed to direct sunlight. The darker glazing behind the B-pillars absorbs more sunlight. The tinted glazing does not hinder outward visibility, but it does protect the rear seats against prying eyes.

The Luggage-compartment separating net*** can be attached behind the rear seats to prevent objects falling forwards into the passenger area (during hard braking, for example). When the rear seats are folded down, it can also be attached behind the front seats.

The electric seat adjustment** makes it particularly convenient and easy to adjust the driver and front passenger seats. The memory function enables drivers to save and retrieve their desired settings for the driver’s seat and exterior mirrors at the push of a button.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

The backrests can be folded down in a 40:20:40 ratio, or they can be attached. The rear and luggage compartment can be used even more flexibly.

The headrests in the third row of seats, offer room for two additional passengers. The backrests can be folded down in a 40:20:40 ratio, or they can be positioned at either of six angles. The seats can be moved individually by 130 millimetres in a 60:40 ratio.

The third row of seats**, with two individually foldable and forward-facing seats, offers room for two additional passengers. To ensure good access, the second row of seats can be folded forwards with the Easy-Entry function.

The Storage compartment package offers additional storage options in the interior and luggage compartment. Among other things, it includes a centre armrest for the rear seat with two cushions, and nets on the front-seat backrests. A double USB port in the rear centre console and a 12V socket in the luggage compartment offer additional connection options for electrical devices.

1 Available as optional equipment.
2 Apple CarPlay® compatibility and supported functions depend on the model year and the software installed on the iPhone®. When the Apple CarPlay® preparation is in use, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for any further processing of the data.
3 Only available for BMW 2 Series Gran Tourer.
4 The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.

Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.
Discover even more with the new BMW brochures app. Available now, for your smartphone and tablet.

The interior trim finishers in Oxide Silver dark matt with accent in Black high-gloss add to the modern aesthetic appeal of the cockpit, which is clearly directed towards the driver.

Selected base model equipment features:
- 16" light alloy wheels V-spoke style 471
- Halogen headlights
- Air conditioning
- Radio media with 6.5" LCD colour display and USB port
- Driving Experience Control incl. ECO PRO
- Seat adjustment for rear seats
- Seat backrest with 40:20:40 division
- Storage compartment package

The interior is dominated by modern aesthetics, which at the same time underlines the sophisticated character of the Luxury Line. The standard seats are covered with leather ‘Dakota’ Mocha with perforations and raise comfort to a new level. They harmonise perfectly with the interior trim finishers in fine-wood trim ‘Fineline’ Stream and highlight trim finishers in Pearl Chrome for an unmistakably high-quality ambience.

Luxury Line exterior equipment:
- BMW kidney grille with twelve exclusively designed vertical slats with front sides in Chrome high-gloss
- Front bumper with specific design elements in Chrome high-gloss
- 17" light alloy wheels Multi-spoke style 547, other wheels available
- Side window surrounds and window recesso finisher in Aluminium anodised, mirror base and mirror foot in Black matt
- Rear bumper with specific design elements in Chrome high-gloss

Luxury Line interior equipment:
- Door sill finishers in aluminium, front, with “BMW” lettering
- Seats in Leather ‘Dakota’ Black with exclusive perforations, other upholsteries available
- Sport leather steering wheel incl. multifunction buttons
- Car key with Chrome detailing
-IOR trim finishers in Fine-wood trim ‘Fineline’ Stream with accent in Pearl Chrome, alternatively IOR trim finishers in ‘Fineline’ Shoe with accent in Pearl Chrome, other trims available
- Exclusive LED optical fibre in the door trim
- Dashboard and centre console with contrast stitching (to match upholstery colour)

*Luxury Line standard equipment.

16" light alloy wheels V-spoke style 471 in Reflex Silver, wheel size 7J x 16, with 205/60 R16 tyres.

Sporty and elegant at the same time: The sport leather steering wheel with multifunction buttons integrates control elements into the horizontal steering wheel spokes for ideal accessibility.

17" light alloy wheels Multi-spoke style 547, wheel size 7.5J x 17 with 205/55 R17 tyres.

Standard for BMW 2 Series Gran Tourer.

* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.
SPORT LINE.

Discover even more with the new BMW brochures app. Available now, for your smartphone and tablet.

The sport leather steering wheel with multifunction buttons sets a sign in the interior that is just as sporty as the interior trim finishers in Aluminium, finely brushed lengthwise with accent in Pearl Chrome.

Sport Line exterior equipment:
- BMW kidney grille with vertical slats, with front sides in Black high-gloss
- Front bumper with specific design elements in Black high-gloss
- 17" light alloy wheels Double-spoke style 549; other wheels available
- Mirror caps in body colour; alternatively in Black
- Rear bumper with specific design elements in Black high-gloss

Sport Line interior equipment:
- Door sill finishers in Aluminium, front, with "BMW" lettering
- Sport seats for driver and front passenger in Cloth/Sensatec combination Anthracite/contrast Grey or accent Orange; other upholsteries available
- Sport leather steering wheel incl. multifunction
- Car key with Chrome detailing
- Interior trim finishers in Black high-gloss with accent in Pearl Chrome; other trims available
- Exclusive LED optical fibre in the door trims
- Dashboard and centre console with contrast stitching (to match upholstery colour)

The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.

- Pure athletics on all seats: The sport seats in Cloth/Sensatec combination in Anthracite with orange accent provide a stable hold even in dynamic curves.

- 17" light alloy wheels Double-spoke style 549, with runflat tyres, wheel size 7.5J x 17 with 205/55 R17 tyres.
M SPORT PACKAGE.

Discover even more with the new BMW brochures app. Available now, for your smartphone and tablet.

The M leather steering wheel with multifunction buttons and interior trim finishers in Aluminium Hexagon with accent in Pearl Chrome combine sporty functionality with dynamic ambience.

* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.
BMW 225xe.

The BMW 225xe Active Tourer combines as a plug-in hybrid a BMW TwinPower Turbo 3-cylinder petrol engine with 100 kW (136 hp) and a 70 kW (95 hp) electric motor, resulting in a system output of 165 kW (224 hp). The standard electric xDrive automatically provides excellent traction and dependable directional stability. Intelligent energy management coordinates the interaction of all BMW drive components. Depending on the selected drive mode and the battery’s charging status, the electric motor can power the vehicle by itself or support the internal combustion engine. During coasting and braking, the motor even transforms kinetic energy into electric energy, which is stored in the lithium-ion high-voltage battery for use by the electric drive system. The top electric speed is 131 km/h. The vehicle can be recharged at home using any domestic power socket or even more conveniently with a BMW Wallbox. When on the move, the BMW can be recharged at public charging stations.

BMW eDrive technology combines the best of both worlds: purely electric, locally emission-free driving (e.g. in urban areas), along with a dynamic driving performance and a great possible range. Intelligent energy management controls the interaction between the electric motor and the combustion engine, deploying both with impressive efficiency.

Quoted performance, fuel consumption and CO2 emissions figures refer to vehicles with standard transmission. Figures in [ ] refer to vehicles with Steptronic transmission. Please see technical data or consult your local BMW partner for further information on fuel consumption and CO2 emissions.
ADDITIONAL EQUIPMENT.

Discover even more with the new BMW brochures app. Available now, for your smartphone and tablet.

- LED fog lights* increase short-range visibility in fog or precipitation, improving safety. The colour of the light they emit is remarkably similar to daylight. They also consume little energy and have a very long lifespan. The fog lights give the front of the car a high-tech, modern appearance.

- The Adaptive LED headlights* include low-beam and high-beam headlights and turn indicators with full-LED technology. The equipment also features BMW Selective Beam, cornering lights, daytime running lights and Adaptive headlights with variable light control for excellent illumination of the road ahead and better visibility in the dark.

- When open, the Panorama glass roof provides a great deal of fresh air. Closed, it creates a bright, light-flooded atmosphere in the interior. It opens and closes completely automatically at the push of a button, or via the remote control, and is equipped with slide and lift functions, a roller sunblind and wind deflector.

- The Comfort access system allows passengers to enter the car via the front doors and to open the tailgate without having to actively use the key. The key must simply be nearby, in the driver’s trouser pocket for example. To unlock the doors, it is only necessary to touch the handles or the tailgate button.

- The Roof rails in Aluminium satinated provide the base for a multifunctional BMW roof rack unit.

- The Chrome Line Exterior features attractive accents with elements in highly polished aluminium and contrasts in black matt.

* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.
ADDITIONAL EQUIPMENT.

- The full-colour BMW Head-Up Display® projects relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info incl. no-overtaking indicator and telephone and entertainment menu lists, among other things are displayed, depending on the equipment.

- The Automatic air conditioning with two-zone control* and automatic temperature control features separate controls for the driver and front passenger. It also includes Automatic Air Recirculation (AAR), a Micro-activated carbon particulate filter, a fogging and solar sensor, as well as rear air vents.

- The Harman Kardon 7.1 Surround Sound system, with twelve speakers optimally designed to suit the interior’s sound characteristics, guarantees an exceptional music experience. Tweeters and subwoofers deliver brilliant, powerful range of sound. Elegant aluminium loudspeaker fronts feature “Harman/Kardon” lettering for a high-class look.

- The Driving Assistant Plus4, * equipment provides a clear improvement in safety and comfort. It includes the Approach control warning and Person warning with light city braking function, Lane Departure Warning, the High beam assistant, the Speed Limit Info, camera-based Cruise control with Stop&Go function as well as the Traffic jam assistant.

- The Parking Assistant 5, * makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over steering, while you are responsible for selecting the correct gear, as well as pressing the accelerator and brake.

- The Lane Departure Warning* detects lane markings and alerts the driver before an unintentional lane change at speeds above around 70 km/h by means of vibrations in the steering wheel. If the indicator is activated, meaning that a change of lane is intended, no warning is given.

- The Rear view camera* enables improved orientation when reversing at speeds below 7 km/h, for example when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distance and turning circles assist you when manoeuvring. Obstacles are marked in colour.

- The Automatic parking brake activated in the car on the Control Display. Interactive track lines for measuring distance and turning circles assist you when manoeuvring. Obstacles are marked in colour.

[Colour samples] These colour samples are intended as an initial guide to the colours and materials available for your BMW. However, experience has shown that printed versions of paint, upholstery and interior trim colours cannot in all cases faithfully reproduce the appearance of the original colour. Please discuss your preferred colour choices with your BMW partner or dealership. There you can also see original samples and be assisted with special requests.

[Equipment] The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or from your BMW Partner.

**Consumption**

1. Figures in [ ] are for vehicles with Steptronic transmission.
2. The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed of the selected equipment, which may have an impact on the vehicle’s aerodynamics.
3. The actual total weight of the trailer may not exceed the maximum permitted trailer load, taking into account the maximum tow bar drawbar.
4. Range depends on various factors, in particular individual driving style, music, outside temperature, heating/air conditioning, pre-conditioning.
5. Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 95 and higher with a maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 95 or higher unsalted petrol.
6. The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurements processes defined by European Regulation (EU) 2020/1766 in the applicable version. Data refer to a vehicle with the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back to NEDC figures for compatibility. For these figures, values are lower than those specified here may apply for the assessment of taxes and other vehicle-related charges that are based on CO₂ emissions.
7. Depending on the local electricity infrastructure. Charging time corresponds to an 80% charge of maximum capacity.
8. Provisional figures; any missing figures were unavailable at the time of publication.
220i ACTIVE TOURER WITH SPORT LINE:  
BMW TwinPower Turbo 4-cylinder petrol engine, 141 kW (192 hp), 18" light alloy wheels Star-spoke style 512, exterior colour in Sunset orange metallic, seats in Cloth/Sensatec combination Anthracite with orange accent, interior trim finishers in Aluminium, finely brushed lengthwise with highlight trim finishers in Pearl Chrome.

The models illustrated in this medium show the equipment and configuration options (standard and optional) for vehicles produced by BMW AG for the German market. Alterations in standard and optional equipment and the configurations available for the different models may occur after 11/12/2019, the editorial deadline for this medium, or according to the specific requirements of other markets. Your local BMW Partner is available to provide further details. Subject to change in design and equipment. Of course, each vehicle is designed for economical recycling after its long-running life. You can find more information regarding your end-of-life vehicle on our website www.bmw.de/recycling.
