The new BMW child seats are particularly safe and comfortable, and feature integrated airpads that protect the head in a side impact. They are also pleasantly soft in daily use. Available in black/Anthracite or black/blue.

Group 0+ BMW Baby Seat with ISOFIX (pic 3)

The ideal seat for babies from 0 to 12 months (approx. 9-13kg). The restraint system comprises a portable baby seat shell with detachable sun protection and integrated airpads as well as an ISOFIX base. The seat can also be attached without an ISOFIX base by using the safety belt. Comfortable steps with a five-point system as well as magnetic clips at all points make it easy to buckle up, while one-handed height adjustment with a visual display ensures an optimum fit. Also suitable for aircraft seats (without ISOFIX base – TÜV-Rheinland certified).

Group 1 BMW Junior Seat with ISOFIX (pic 2)

The Group 1 seat is ideal for children from 12 months to 3.5 years (approx. 9-18kg). It consists of a seat shell with a five-point belt system, integrated airpads and an ISOFIX base, which can also be used for the Baby Seat 0+ and the Junior Seat 1. The seat shell, together with the ISOFIX base, can be attached to the vehicle. Children are at their safest when the seat is rear-facing, although forward-facing attachment is possible. Magnetic clips, the comfortable five-point belt system and one-handed height adjustment all make it easy to buckle up.

The LED torch can be connected to the 12V socket for charging.

The auxiliary heater in vehicles with ConnectedDrive can also be activated, regardless of distance, using the BMW Remote app and an iPhone.

For a comfortable, warm interior and defrosted windows before any winter drive. Activated via the Control Display and includes control and display as well as programming. 3. The base attachment for this modular system simply mounts between the headrest bars and can be used for hangers, a folding table, a universal hook or an Apple iPad holder (see page 6/7).
A beautifully designed ski boot bag that can also hold ski goggles and a helmet. It perfectly complements the BMW X5 and can be used outside the vehicle. Excellent carrying comfort is guaranteed thanks to attractive handles and a useful shoulder strap. In black/silver.

Your multi-faceted companion. The bag can be filled with small items before setting off and easily attaches to the rear of the driver’s or passenger’s seat. In a high quality combination of genuine leather and finely structured fabric. Also available in other materials and colour combinations.

A combination of exceptional design and intelligent functionality. The bag can be packed with items at home and attaches to the back seat with the centre seat belt. In a high quality and durable combination of genuine leather and finely structured fabric. Also available in other materials and colour combinations.

Unlike other similar products, this allows up to four pairs of skis or three snowboards to be transported safely and cleanly. Attaches securely to the front lashing eyes in the luggage compartment, is easy to attach and also has two wheels so it can pull with ease outside the vehicle. Tested according to strict BMW quality and safety standards. In a high quality combination of genuine leather and finely structured fabric and featuring BMW lettering on the metal inserts. Also available in other material and colour combinations.

Original BMW Communication & Information Accessories.

1. BMW holder for Apple iPad

Real passengers can simply snap an Apple iPad to the base support of the Travel & Comfort system (see page 7 for ease of use). Adjustable for height and angle, this holder can also be placed in a provided stand and used outside the vehicle.

2. Snap-in adapter

Docking system for current mobile phones from Apple, Nokia, Samsung and BlackBerry®. In conjunction with the mobile phone preparation with Bluetooth interface, this adapter changes the phone into a wireless optical network receptor, which is ensured via vehicle’s external antenna. Depending on vehicle equipment and the mobile phone being used in the snap-in adapter, music files can be controlled by the phone or playlist and album covers can be shown on the Control Display. BMW apps can also be used. Current information on Bluetooth compatibility for your vehicle can be found at www.bmw.com/bluetooth.

3. BMW Car Hotspot LTE

Taking mobile internet access into a new dimension. With the BMW Car Hotspot LTE, you and your passengers can get online with up to eight wireless devices — at the speed of LTE. All that’s required is for a SIM card to be inserted into the BMW Car Hotspot LTE. It fits into a centre armrest dock or, thanks to its integrated battery, can be used outside the vehicle. If the LTE network is not available, UMTS (HSDPA) or GSM can be used. Roaming while abroad can be optionally deactivated.

4. Tablet DVD system

Two portable seven-inch monitors for mounting on the headrests. The DVD player integrated into one of the monitors plays video DVDs plus photo and audio CDs (including MP3 format). Pictures and music from USB sticks and memory cards can also be viewed/played.

Perfect sound is delivered by infrared stereo headphones especially developed for the system. They offer individual volume control, excellent sound imaging and high comfort. Also available as a single tablet DVD system with only one portable screen featuring an integrated DVD player.

5. USB battery charger

A highly convenient way to charge mobile devices in the car via the cigarette lighter socket. A dual USB battery charger for simultaneous charging two mobile devices is also available.

6. Digital wireless headphones

In an exclusive BMW design and mode specifically for the optional Rear Entertainment system. With digital, interference-free transmission, volume control, excellent sound imaging and high comfort.

7. Digital roadmaps

Up to 25 per cent of the road network changes every year but with the latest digital roadmaps you are always in the picture. Depending on country version, they offer congestion warnings and RSS/TMC (Traffic Message Channel) functions. Mobile-dependent functions, including certificates, are available via CD/DVD or USB sticks.

The trailer tow hitch with trailer stability control is the perfect partner for the BMW X. Approved for high towing capacity, up to 2,250 kg (with a tow bar download of up to 1,200 kg). When the tow bar is removed, the tow hitch is not visible. Also available with a fully electric, pivoting tow bar.

For transporting up to two bicycles or e-bikes. An extension set for a third bike is available. The holder and bikes are secured against theft. The holder pivots down to allow tailgate access and can be folded and stored in the boot. With selected engines, a folding heat shield protects the bicycle tyres from hot exhaust gases.

Suitable for bicycles with quick-release levers on the front wheel. A holder for securing the front wheel to the base support system is also available.

For detailed information about the entire range of Transportation & Luggage solutions, see the BMW website.

BMW Natural Air products are the most convenient way to create a refreshing interior atmosphere. Fragrance sticks can be placed in a special holder that attaches quickly and easily to any BMW ventilation grille. The sticks are interchangeable and the intensity of their scent can be adjusted by hand. The BMW Natural Air holder system allows the holder to swing to the side or rotate to the rear in order to place the fragrance stick in either Purifying Green Tea, Energizing Tonic or Balancing Amber. And there’s no chance of any leakage because the sticks contain no fluid.

Create an atmosphere of well-being and an even more enjoyable ambience – with scents extracted from essential natural oils and made exclusively for BMW.
