BMW PERFORMANCE. ORIGINAL BMW ACCESSORIES.

JOY IS THE VITAL COMPONENT.

2 BMW Performance power kit

The BMW Performance power kit for the BMW X6 50i further enhances the vehicle's already impressive performance. Specially developed engine electronics increase output from 300 to 330 kW, and boost maximum torque to 650 Nm – with no change in emissions over the regulatory test cycle. What's more, the maximum torque is available from just 2,000 rpm, which translates into better acceleration. Your BMW X6 now reaches 100 km/h from a standing start 0.2 seconds quicker, and is 0.5 seconds faster from 80 to 120 km/h (V8 engine in fifth gear). Also available for the BMW X6 35i. Get ready to redefine the limits of your BMW X6.

3 + 4 BMW Performance silencer system

The BMW Performance silencer system has a distinctive sound that enhances the sporty feel of the driving experience. Visually, the two chrome-plated stainless-steel tailpipes dazzle with their high-tech looks. Available for BMW X5 and BMW X6 models with 6-cylinder engines.

A PASSION FOR PERFORMANCE MEANS A REFUSAL TO COMPROMISE.

BMW Performance is a unique expression of pure power, and a byword for innovative technology, dynamic performance and racing style.

Inspired by the world of motor sport and born out of a passion for technology, the BMW Performance product range lets the world see at a glance exactly what your BMW is capable of. A variety of components that are as visually striking as they are technically sophisticated guarantee that your BMW is almost as exciting to look at as it is to drive. So choose the BMW Performance product range for your BMW X5 or BMW X6, and make sure it gets the attention it deserves.

1 + 5 BMW Performance aerodynamic kit

The uncompromisingly unique lines of the BMW Performance aerodynamic package emphasize the dynamic character of the BMW X6 and BMW X5, and make an unambiguous statement of intent. The complete BMW Performance aerodynamic package comprises a BMW Performance bumper at the front, BMW Performance side skirts, and a BMW Performance diffuser in the rear bumper. On the BMW X6, BMW Performance rear fins and a BMW Performance rear spoiler are also available as options. The overall effect is extremely impressive, combining striking looks with a reduction in drag, for improved responses and an even more invigorating driving experience. Not available on vehicles with Active Cruise Control.

5 BMW Performance front grille in black

The BMW Performance front grille in black is an eye-catching design element that perfectly complements the uncompromising design of the BMW Performance aerodynamic components. One glance will have you itching to get behind the wheel.

6 BMW Performance rear spoiler

The striking rear spoiler uses cutting-edge technology to optimize aerodynamic performance. A matt black paint finish blends seamlessly with the dynamic lines of the BMW X6.

7 BMW Performance rear fins

The BMW Performance rear fins emphasize the powerful, dynamic looks of the BMW X6.

8 BMW Performance sport steering wheel II

Completely covered in Alcantara, the wheel offers excellent grip even when performing fast manoeuvres. The curvature of the rim is flattened at the lower edge, and it also features eye-catching white cross-stitching. Not available on vehicles with Lane Departure Warning.

9 BMW Performance aluminium pedal pads

The quest for perfection reaches into the driver's footwell: the BMW Performance pedal pads are high-precision aluminium components with a minimalist high-tech look.

10 21-inch BMW Performance Y-spoke 375 in ferric grey

Featuring a rolled centre, this cast Original BMW light-alloy wheel has been systematically designed for minimum weight. Reducing the unsprung mass in this way improves steering performance on turn-in, for a more dynamic driving experience. And thanks to its eye-catching bicouleur design with BMW Performance lettering, it has the style to go with the substance. 10J x 21-inch at the front, 11.5J x 21-inch at the rear. Supplied as a single wheel, without a tyre.
