ORIGINAL BMW ACCESSORIES.
BMW 3 SERIES, BMW 4 SERIES, BMW X3, BMW X4 AND BMW Z4.

A NEVER-ENDING JOURNEY OF DISCOVERY.

Driving pleasure in your BMW is there to be discovered each and every day. The best part? It's a journey that never ends, with exciting new discoveries to be made at every turn.

And whatever direction you take, whatever your needs, you will always be perfectly equipped with Original BMW Accessories. Individual and flexible. Comfortable and functional. Tailor-made and safe – and offering the very best of BMW quality.

There are four categories to choose from, presenting a fascinating world of diversity: **Exterior, Interior, Communication & Information** and **Transport & Luggage solutions**.

If you are looking for inspiration, then look no further.

Access exciting digital content via the QR code on page 15.

All you need is a code-reader. Simply choose and download one from the wide selection available from the App store. Then, start the reader and hold your smartphone or tablet about 20cm over the code.

Internet use, depending on your mobile contract, can incur costs.

NEW EXPERIENCE LEADS TO NEW EXPRESSION.

There is always something new to experience when you live a life in motion. And often, this gives rise to new ways of expressing yourself. With Original BMW Accessories for the Exterior, there is always the most fitting solution to suit this dynamic approach to life. Sporty, aesthetic, high quality – and as unique as you are.

In focus: 20" light alloy wheels Cross-spoke style 404

The high quality 20" light alloy wheels are in Bicolour Black with a burnished finish on the visible sides and feature corrosion protection. TPM complete wheel set with mixed, run-flat tyres. Front: 8J x 20 wheels with 225/35 R20 90Y XL RSC tyres. Rear: 8.5J x 20 wheels with 255/30 R20 92Y XL RSC tyres.

EXTERIOR. BMW 3 SERIES. BMW 4 SERIES.

1 M Aerodynamics package

The M Aerodynamics package visually accentuates the sportiness of the vehicle. It comprises a front apron with enlarged air inlets, special side skirts and a rear apron with a diffuser insert in Dark Shadow metallic. The tailpipes are finished in high-gloss chrome.

1 20" light alloy wheels Star-spoke style 660

These wheels are forged, in Bicolour Orbit Grey and have a burnished finish on the visible sides. With their two-colour look, they give the vehicle a strikingly sporty touch.

2 20" BMW M Performance light alloy wheels

Double-spoke style 405 M

Forged, in Bicolour Orbit Grey, burnished on the visible sides and featuring the BMW M logo.

2 BMW Design retaining clips

These are made in high quality spring steel, painted in a classic grey and feature the BMW logo. They replace the standard retaining clips and, with the open-wheel design, make the brake calipers look even more striking. Available in sets of two or four.

3 + 4 20" BMW M Performance light alloy wheels

Double-spoke style 624 M

Forged and polished (pic 3), or forged, in Bicolour matt Black and milled (pic 4). Featuring the BMW M logo.

01

02

03

04

5 + 6 20" light alloy wheels Double-spoke style 361

Giving the vehicle an even sportier look in Bicolour Black with a red border (pic 5), or Bicolour Ferric Grey and burnished on the visible sides (pic 6).

7 19" light alloy wheels Double-spoke style 598 M

In Bicolour Orbit Grey, burnished on the visible sides and featuring the BMW M logo.

8 19" light alloy wheels Multi-spoke style 399

In Bicolour and with a burnished finish.

9 18" light alloy wheels Multi-spoke style 416

In Reflex Silver and with a burnished finish on the visible sides.

EXTERIOR. BMW X3. BMW X4.

1 BMW M Performance front grille, black

The black front grille, in tear- and impact-resistant plastic, impressively underscores the individuality of the vehicle. Black grille bars and high-gloss black surrounds accentuate the sporty character, while making the BMW kidney grille a visual highlight in itself.

1 BMW M Performance wing mirror caps, carbon

Meticulously hand-crafted in 100 per cent carbon: the striking wing mirror caps highlight the technologically advanced character of the vehicle. Their dynamic design ensures a particularly high quality look and creates an individual, sporty accent.

1 M Aerodynamics package

The M Aerodynamics package visually accentuates the sportiness of the vehicle. It comprises a front apron with enlarged air inlets, special side skirts and a rear apron with a diffuser insert. The tailpipes are finished in chrome.

1 + 2 21" BMW M Performance light alloy wheels

Double-spoke style 599 M

In Bicolour matt Black, burnished on the visible sides and featuring the BMW M logo.

3 20" BMW M Performance light alloy wheels

Double-spoke style 310 M

In Bicolour Orbit Grey, burnished on the visible sides and featuring the BMW M logo.

4 + 5 20" light alloy wheels Star-spoke style 311

In Silver (pic 4) or fully chromed (pic 5) and featuring visible wheel bolts for a sporty look.

6 19" light alloy wheels Double-spoke style 369 M

Cast and featuring the BMW M logo.

7 18" light alloy wheels Star-spoke style 368 M

For a particularly elegant and sporty look.

8 17" light alloy wheels Y-spoke style 305

With a look that highlights the vehicle's sporty appearance.

9 Mud flaps

The robust black mud flaps protect both your vehicle and those following from dirt and stone chips. They accentuate the powerful and distinctive look while also, on the road, showing what the vehicle can do off the beaten track. Sets are available for the rear or front wheels.

10 20" light alloy wheels Y-spoke style 542

In Bicolour matt Black and burnished on the visible sides.

Locking wheel bolts (not pictured)

This set comprises four locking wheel bolts with special BMW coding. The bolts can only be opened using the supplied tool and thus provide highly effective protection from wheel theft.

BUSINESS AS UNUSUAL.

Some believe that they need to adapt to their surroundings. The surroundings of your BMW, however, adapt to you. More comfort? More functionality? More safety? More style? Discover how life on the move can be even more individual with Original BMW Accessories for the Interior.

In focus: Travel & Comfort system – base carrier with clothes hanger, GoPro holder

The base carrier of the modular system is securely mounted between the front seat headrest bars. Plug-in connectors now allow the practical clothes hanger or a fully adjustable holder for all GoPro action cameras to be easily attached and locked into place. Please see page 14 for more information.

1 Backrest bag

The high-quality bag is made of durable material and can be attached to the back of the front seat. Thanks to an array of inner pockets, it offers a wealth of storage space for various items and can also be easily folded and carried when needed. Available in black, black/Anthracite, black/red and black/beige.

1 Rear storage bag

This bag, available in black, black/Anthracite, black/red and black/beige, attaches to the centre safety belt and can serve as an armrest in the rear. It offers a great deal of storage space, plus two cupholders, and can be comfortably carried with the integrated shoulder strap.

2 - 4 Travel & Comfort system

The Travel & Comfort system extends the vehicle's functionality. A variety of components can be effortlessly latched onto the sturdy base carrier, which is easily attached between the headrest pillars. The base carrier can be used with holders for different Apple iPads (Apple iPad 2, 3, 4, Apple iPad Air 1 or Air 2 and Apple iPad mini) (pic 2) as well as Samsung tablets (Samsung Galaxy Tab 3 10.1 and 4 10.1). It also includes a port for a USB/charging cable and a 360° swivelling frame for the device. Additionally, a holder is available for all compatible GoPro action cameras (see page 13). This is quick and easy to attach to the carrier and can be freely adjusted as required. There is also a practical folding table (pic 4). This has an attractive BMW design, is adjustable for height and angle and features an integrated cupholder with a chrome ring. The clothes hanger (see page 13) is another useful feature. This makes it possible to hang pieces of clothing on the rear side of the backrest. It can also be used outside of the car (hotel function). The universal hook (pic 3) allows for pieces of clothing or light bags to be easily stowed on the rear side of the backrest, providing protection from dirt in the footwell. All Travel & Comfort system components have been crash-tested in BMW vehicles and comply with the particularly high safety standards of BMW. They can be ordered individually, as required.

5 - 7 Sunblind

The sunblind is available for the rear side windows (pic 6) or the rear windscreen (pics 5 + 7) and can even be used when the window is open. Thanks to its precisely fitting shape, it is particularly effective in protecting children from direct sunlight and also helps to reduce the temperature of the interior.

7 Group 1 BMW Junior Seat

In conjunction with the ISOFIX base, the Group 1 BMW Junior Seat in black/blue or black/Anthracite is the safe option for children from approx. 12 months to four years old (approx. 9–18kg). It can be mounted either front- or rear-facing and, with its patented airpads, offers increased side impact protection for the head.

8 Group 0+ BMW Baby Seat

The infant car seat in black/Anthracite or black/blue offers optimum safety for babies up to approx. 13kg (approx. 15 months). Patented air pads provide particularly high impact protection for the head area. It is attached by using either the separately available ISOFIX base or the three-point safety belt.

9 Group 2/3 BMW Junior Seat

Available in black/blue or black/Anthracite, this seat essentially grows with children from around three to 12 years of age (approx. 15–36kg). It has ISOFIX connectors and patented air pads, affording particularly high impact protection for the head area. It also offers a patented height and width adjustment feature that can be operated with one hand. An included rucksack allows the seat to be carried when folded.

Simply scan the QR code to watch a video that describes the features and functions of the BMW child seats.

1 BMW LED doorsill finishers

The sophisticated doorsill finishers with illuminated BMW lettering automatically emit a discreet light when the doors are opened. The high-performance batteries for the LED lights last up to three years and changing them is as easy as installing the finishers.

1+2 All-weather floor mats

The precisely fitting, hard-wearing mats with their raised bordering and elegant design not only protect the footwells from damp and dirt, but also prevent feet from getting wet. They are available in black (pic 1), black/red, black/beige or in black with additional metal inlays (pic 2) for the front and rear footwells.

3 Velour floor mats

The precisely fitting mats are made in water- and dirt-resistant material, reliably protect the footwells from soiling and moisture and blend perfectly with the interior design. Sets for the front and rear footwells are available in either Anthracite, Oyster or Beige.

4 Textile floor mats

The precisely fitting textile floor mats for the front or rear footwells are available in black, black/beige or black/red. They provide reliable protection from dirt and damp and, depending on the version, feature either a metal inlay or additional heel protection.

5 Auxiliary heater

This ensures a pleasant interior temperature without iced-up or fogged windows before the start of a journey. It also makes it faster for the engine to reach its optimal operating temperature. It is operated, depending on model, by remote control, mobile phone, the head unit or iDrive.

6 BMW LED interior lighting package

This package offers long-life, low-energy bulbs with the same light emission characteristics and a contemporary daylight white for replacing the roof lights (set of 4), the roof, footwell and door lights (set of 10) or all interior lights with C5W bulbs (set of 2).

7 BMW LED door projectors

The innovative door projectors automatically activate when the doors are opened. They project an image onto the ground next to the car using an interchangeable slide. There are several designs to choose from, each illuminating the entry area in strikingly individual style.

8 BMW LED luggage compartment lighting

This provides five times greater illumination than the standard lighting. Optimised light distribution also effectively illuminates otherwise dark corners of the luggage compartment in BMW Saloons.

9 BMW Natural Air

This comprises six interchangeable fragrance sticks and a special adjustable holder for all BMW models. The fragrances Purifying Green Tea, Energizing Tonic, Balancing Amber, Vitalizing Woods, Harmonizing Flowers and Sparkling Raindrops can be selected as desired.

10 Key case

The key case, in high-quality leather, is firmly attached to the key by means of a stainless steel clasp. It protects against scratches, dirt and moisture, prevents buttons from accidentally getting pressed and features black colouring that perfectly complements the BMW interior.

➤ For detailed information on the compatibility of smartphones and tablets with your BMW, please go to www.bmw.com/bluetooth

WHEN STAYING CONNECTED MAKES SENSE.

In the picture, up to date, in touch with your world: with Original BMW Accessories for Communication & Information you will always be ahead of the times. Wherever you go next, your network is right there by your side.

In focus: Snap-in adapter

The Snap-in adapter is a secure docking and charging system for mobiles from manufacturers including Apple, Samsung, Nokia and Motorola. To ensure optimal network connection, the mobile accesses the vehicle's exterior aerial via the adapter. Depending on the vehicle and its equipment, the Snap-in adapter is available in Basic, Music, Media, Connect and Connect Universal versions. These also allow audio stored on a mobile to be played through the vehicle's speakers. Additionally, the adapter enables convenient operation via the iDrive Controller, multifunction steering wheel or radio.

1 BMW Head-up Screen

Innovation always in sight. The BMW Head-up Screen is a transparent OLED display that shows navigation instructions and important vehicle information. It is always in the driver's direct line of sight, so there is no need to look away from the road ahead. And even in direct sunlight, the display can be easily read. It is simple to operate, either via smartphone and a specially developed, cost-free app (for Android and iOS devices) or the retro-fitted BMW integrated Navigation system, which is expected to be available in Europe, China and North America from the end of 2015.

2 Tablet DVD system

The high quality Tablet DVD system allows rear passengers to experience the best in entertainment from either one or two portable screens. A DVD player and speakers are integrated into the system for the playback and enjoyment of music, video and images from various media.

2 Infrared stereo headphones

The infrared stereo headphones are specially designed for the Tablet DVD system. Their exceptional sound quality and outstanding comfort can be enjoyed by adults and children alike.

3 Connect Universal snap-in adapter

This makes it possible to dock and charge all compatible phones with a micro USB port and the BC 1.2 charging standard. To ensure optimal network connection, the mobile accesses the vehicle's exterior aerial via the adapter. A USB interface enables music stored on a phone to be played through the BMW audio system, while respective album covers are shown on the Control Display. The functionality of the adapter can be extended via the BMW Connected app, which allows access to a host of smartphone features.

4 BMW Click & Drive system

The BMW Click & Drive system, in combination with specially designed clips, holds compatible smartphones from Apple and Samsung as well as the BMW Portable Navigation unit. The holder itself is attached to the windscreen and enables the charging of devices.

5 BMW Advanced Car Eye¹

This consists of a high-sensitivity full-HD front camera and a rear windscreen camera which monitor activity to the front and rear of the vehicle, even at night. If a shock to the vehicle is detected – when, for instance, there is an accident or a break-in – the situation is automatically documented and stored by the cameras.

6 USB adapter

This allows compatible Apple iPod or iPhone devices to be securely integrated in the vehicle, enabling individual music enjoyment and simultaneous charging. Functions are operated using the iDrive Controller, the multifunction steering wheel or radio and music is played through the vehicle's loudspeaker system.

7 BMW Car Hotspot LTE

The BMW Car Hotspot LTE provides an unparalleled high-speed internet experience for up to eight users. An LTE-compatible SIM card is the only additional requirement for the device. The mobile hotspot is easy to install and, thanks to an integrated battery, can be used outside of the vehicle.

8 BMW dual USB charger

The BMW dual USB charging adapter simply inserts into the cigarette lighter. This allows two external mobile devices to be easily and conveniently charged at the same time. The high current enables the likes of smartphones and MP3 players to be charged very quickly.

Micro USB adapter (not pictured)

This allows various mobile audio sources to be integrated in the vehicle, enabling individual music enjoyment and charging. Devices such as MP3 players and smartphones can be operated directly via the on-board control system.

Digital roadmaps (not pictured)

The digital roadmaps for BMW navigation systems are your dependable travel guides, either in your own or in other European countries. In addition to the current road situation, they also offer the integrated Falk travel guide for valuable extra information on the move.

YOUR BMW. YOUR SPACECRAFT.

Whether it's the day-to-day, it's free time or you're thinking of a long journey: life offers endless possibilities. And with Original BMW Accessories for Transport and Luggage you will be best equipped to make the most of them. All set for launch in no time at all – and on to new horizons.

In focus: BMW roof boxes

The contemporary boxes fit all BMW roof rack systems and, depending on model, have a capacity of 320, 350 or 460 litres. They feature an innovative opening system that makes loading very easy. There is also triple-central locking on both sides to prevent theft. Roof boxes with a 350-litre capacity are available in silver/Anthracite, while the 320- and 460-litre versions come in black/Anthracite and Titanium Silver/Anthracite and various decorative trims.

1 Racing cycle holder, lockable

The lockable racing cycle holder enables the secure transport of racing bikes with the quick-release wheel system. It is made of high-strength aluminium and features a simple clamping system for attaching the bicycles. A separate front wheel holder is also available.

1, 3 - 5, 7 BMW roof rack system

The BMW roof and rail carrier is optimised for all BMW roof racks and roof boxes and can be easily mounted. With its robust construction and anti-theft locking system, it also meets the highest quality and safety standards.

2 + 6 BMW rear bicycle rack

The BMW rear bicycle racks are designed to withstand high dynamic stresses and, thanks to a folding function, enable access to the luggage compartment. They are suitable for bikes weighing as much as 30kg and fold into a small packing size. For selected models, an extra transport rail is available for a third bicycle.

Rear bicycle rack Pro 2.0 for tow ball (pic 2)

Rear bicycle rack Pro for click-on system (pic 6)

2 Trailer tow hitch with fully electric swivelling tow bar

This conveniently folds the tow bar in or out at the touch of a button. The tow bar is also suitable for mounting bicycle racks and folds out of sight beneath the bumper when not in use.

3 Touring cycle holder, lockable

The lockable touring bicycle holder is made from high-strength aluminium and enables the safe transport of a racing, touring or children's bicycle or a mountain bike. Bicycles weighing up to max. of 22.5kg can be attached with an easy-to-use clamping system.

4 Ski and snowboard holder, lockable

This is compatible with all BMW roof rack systems and enables the secure transport of up to six pairs of skis, four pairs of skis with ski poles or two snowboards and two pairs of skis with poles. To prevent damage from raised ski bindings, **raised carrier bars** can be used to increase the gap between the holder and the roof of the car by 25mm.

5 Luggage rack

The lockable luggage rack, in highly durable anodized aluminium, can be used with the tensioning belts to add an abundance of storage space to any BMW roof rack system. The particularly tear-resistant belts feature sturdy turn-buckles and help prevent even the most unwieldy objects from moving around.

7 Surfboard holder

The holder can be used to securely mount a surfboard and mast on all BMW roof rack systems. It features an innovative attachment system that makes handling particularly easy.

1+9 Luggage compartment mat, fitted

The durable, anti-slip and water-resistant mat with raised bordering on all sides protects the luggage compartment from dirt and moisture. Visually, it also perfectly blends in with the luggage compartment and different versions are available.

2 Adaptive luggage securing system

This system is easily attached to the lashing rails and can be adjusted forward and backward. This allows the storage space to be quickly and individually partitioned, thus preventing light loads from slipping.

3 Luggage compartment restraint belts

With these extremely strong luggage compartment belts, storage space can be divided to suit individual needs. The belts can be quickly attached to the rails, then slid into place to prevent luggage from shifting.

4 Travel set

This comprises a cabin-size trolley and a carry-on bag, which can be used to create extra storage space on the rear seat. The pieces of luggage can be transported individually or stacked together. They are held in place using the seatbelt and feature their own anti-theft locks.

5 Rear seat protector

This protective cover prevents the rear seats from getting dirty. Thanks to recesses for safety belts and buckles, it's the perfect accessory when travelling with dogs, for example. When carrying passengers or cargo at the same time, a divisible cover is also available.

6 Ski and snowboard bag

The ski and snowboard bag allows up to four pairs of skis or three snowboards to be transported in the vehicle's interior and is available in various designs. For optimal safety, the bag must be attached to available fastening points using the lashing straps, which include carabiner hooks.

7 Folding box

The folding box, with its load capacity of up to 20kg, can be used to store smaller items or as a shopping crate. It can be effortlessly folded and unfolded thanks to Velcro strips, is slip-resistant and can be easily stored away to save space when not in use. Available in black, black/red and black/beige.

8 Luggage compartment net

This prevents loose items from slipping in the luggage compartment. The elasticated black netting features pull tabs and attaches via integrated S-hooks to the vehicle's existing lashing eyes.

9 Loading sill mat

The durable mat protects the loading sill during loading and unloading and the luggage compartment from scratches and dirt. It is attached using moveable velcro strips on the rear fastening points in the luggage compartment. It can also be used as an anti-slip mat in the luggage compartment.

BMW Service

INNOVATION MEETS EXPERTISE.

ORIGINAL BMW ENGINE OIL AND SERVICE.

BMW engines deserve the most innovative premium oil, which is why we use new BMW TwinPower engine oil for BMW oil servicing. Original BMW engine oil is engineered to precisely meet the needs of your engine and ensures consistently high performance and a longer lifespan.

NATURALLY EFFECTIVE. NATURALLY PURE.

Never has vehicle care been so environmentally and resource-friendly. All products from the Pure Care inspired by BMW i range are manufactured using natural resources – so they are perfect for the high quality materials of your BMW. Highly effective, strongly protective, yet remarkable gentle: treat your vehicle to the pure and sustainable power of nature.
